INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and the Community Board Budget Requests (Budget Requests) are Charter requirements and an integral part of the City's budget process. When developed through informed planning and careful consideration, CD Needs Statements and Budget Requests can play an important role in consultations of community boards with agencies, elected officials and other key stakeholders on a broad range of local planning and budget priorities. These tools also provide a valuable public resource for neighborhood planning and research purposes, and are used by a wide audience seeking information about New York City's diverse communities.

This year, for the first time, community boards electronically submitted a CD Needs Statement combined with their Budget Requests. The goal of these improvements is to simplify preparation of both documents for the community boards and to make the information community boards provide more easily accessible for City agencies and other stakeholders. Simplified and more efficient processes will allow all parties involved in the budget process to consider budget decisions more thoroughly, with better results for all New Yorkers.

This report represents Bronx Community Board 10's Statement of Community District Needs and Community Board Budget Requests for Fiscal Year (FY) 2017. This report contains the formatted but otherwise unedited content provided by the Community Board which is displayed in italics.

Some community boards provided substantive supplemental information. This supportive material can be accessed by clicking on the links provided in the document or by copying and pasting them into a browser.

2. OVERVIEW OF COMMUNITY DISTRICT

Bronx Community Board 10 provided the following overview of their district:

Bronx Community Board #10 is one of the largest geographic Community Board Districts in the Borough. The Board serves the communities of Pelham Bay, City Island, Country Club, Throggs Neck, Co-op City, Westchester Square and Zerega. It features one of the most diverse housing categories in the City. It primarily consists of well maintained 1-3 family homes situated on tree shaded streets, yet it is also home to the largest housing cooperative in New York State, Co-op City.

Bronx Community Board #10 is a District surrounded by the following water bodies: Eastchester Bay, Long Island Sound and the East River. One of its most pressing needs is the implementation of storm resiliency strategies that will protect the Board from tidal surges that are expected to come from major storms, such as Hurricane Sandy. Our Board experienced significant damage during this storm event. With the exception of the Edgewater Park community, the Mayor's SIRR report ignored the bulk of the Community Board. As proper stewards for the Board's service areas, we at Bronx CB #10 took it upon ourselves to conduct an examination of the Board's storm surge defenses.

We were ably assisted in this effort by the Bronx Borough President's Office and the Fund for the City of New York, who provided us with an Urban Fellow, who was a graduate student at Pratt Institute, to conduct a comprehensive survey of our shoreline communities and to determine the type of defenses against storm surges that are needed. The research yielded the following recommendations: that earth berms, rock jetties and sea walls were the best methods to control coastal flooding from the storms. The Board further felt that the storm sewers should be examined, as well. High functioning and adequately sized sewers are needed for the water to drain off. The Board is interested in seeing DEP and DOT develop joint projects for these purposes.

3. MAIN ISSUES

As part of this year's process, community boards were asked to select from a list the three most pressing issues facing their district. Bronx Community Board 10 identified the following three issues:

- *Parks*
- *Street flooding*
- *Other <I>Please specify below</I>|The 45th Precinct station house is old and requires replacement. See statement below.*

Bronx Community Board 10 provided the following explanation for their choices:

Bronx Community Board #10 is a water bound Board service area, and as such, it is prone to storm surge flooding. It is our Board's hope that the New York City Departments of Environmental Protection and Transportation will develop joint projects to assist our shoreline communities during and after a major storm event.

The 45th Precinct lost its drug module (specialized unit). The drug trade in Bronx Community Board #10 is different because all of the points of sale in our Board, are associated with cars. The Board sits at the confluence of the Bruckner Expressway, the New England Thruway and the Cross Bronx Expressway. Drug dealers and buyers through the use of the internet and non traceable cell phones, conduct their illicit activities on our Board's streets and escape to the highway system. The Precinct had its module combined with the 43rd Precinct. The Board believes the 45th Precinct requires its own module, and if it had to be shared, it should be with the 49th Precinct.

The 45th Precinct station house at 2877 Barkley Avenue was built in the mid twentieth century and houses a police department that has to perform 21st century duties. All of its offices, its lockers and restrooms, its duty room, holding facilities and public areas require complete renovation. The Board understands that the NYPD has committed to a program to upgrade this facility. However, the upgrade does not address the parking issue for the Precinct. The official cars, visiting cars from other Precincts or jurisdictions, plus the officers' personal vehicles are forced to park in the streets surrounding the Precinct. This situation has caused the residents of the surrounding community to lose street parking. A possible solution to this problem lies in the acquisition of the former Mande's Store, located at 3860 E. Tremont Avenue, this is a modern linear building with a basement and a parking lot. The Board feels that it would be more cost effective to move into this building, which has a parking lot, rather than renovating the old precinct. Pelham Bay Park is located within Bronx Community Board #10. It features a beautiful shoreline and Orchard Beach. This Park and Ferry Point Park are bounded by water. Here again protection from storm surges are needed. All of the parks in the Board require enhanced Parks Enforcement Officers.

4. SUMMARY OF COMMUNITY DISTRICT NEEDS AND COMMUNITY BOARD BUDGET REQUESTS

Community Boards were asked to identify their district's needs related to the following seven policy areas:

- Health Care and Human Services;
- Youth, Education and Child Welfare;
- Public Safety;
- Core Infrastructure and City Services;
- Land Use, Housing and Economic Development;
- Transportation; and
- Parks, Cultural and other Community Facilities.

Based on the needs identified, community boards then had the opportunity to make budget requests to address these needs.

The following sections describe the specific needs and budget requests of Bronx Community Board 10 for FY 2017.

4.1. Health Care and Human Services Needs and Requests

Main Issue

Environmental health issues

The Community Board provided the following explanation for the above issue:

Our Board sits at the confluence of three major highways, the New England Thruway, the Bruckner Expressway and the Cross Bronx Expressway. These roads carry the bulk of motor freight from the entire country through our Board's environs. miles of trucks, cars and buses often sit in traffic jams spewing pollutants into the air and making noise. The Bronx, including the northeast Bronx has one the highest incidences of respiratory disease in the City. The Board would like the City to explore alternatives to truck usage and work with organizations like the Port Authority of NY and NJ on rail and water alternatives. It is hoped that the NYC DOH and MH can be of assistance in initiating an air pollution assessment model.

Community District Needs and Requests

4.1.1. Community District Needs and Requests Related to Health Care Facilities and Programming

The Community Board provided the following high level comments and background on the District's needs:

Our Board is served by the Jack D. Weiler Hospital of Montefiore Medical Center and its medical school, the Albert Einstein College of Medicine. We are also served by Jacobi Hospital of NYC HHC. The two hospitals are in close proximity to each other. By contract and custom, the medical school provides physicians to Jacobi Hospital. Both have very busy emergency rooms, where patients can be kept waiting for assistance for protracted periods of time. Our Community Board has seen the emergence of free standing and unaffiliated Urgent Care sites and government funded health care centers operated by non-profits. Perhaps, a coordinated public service campaign could be established with the administrative and financial assistance of NYC DOH and MH and HHC to develop and disseminate educational materials on when it is appropriate to use an emergency room and when it is not. This type of program will cut down on the non essential visits to the emergency rooms, allowing them to function at higher levels. Additionally, an effort should be made to include the free standing Urgent Care and non profit health facilities into the networks of these hospitals. If this were to take place, there would be a greatly expanded pool of services for patients.

4.1. Health Care and Human Services Needs and Requests

4.1.1. Community District Needs and Requests Related to Health Care Facilities and Programming

The Community Board submitted the following budget requests:

Budget Requests are listed for informational purposes only. OMB maintains the definitive list that may have more updated information on request for agencies, published in its Register.

Capital Requests related to Health Care Facilities and Programming (as provided by the Community Board)

Priority numbers apply to capital budget requests from all policy areas. A complete list of capital budget requests by this Board sorted by priority can be found in Section 5.1. of this document. CS in the priority column indicates the Board's Continued Support for a fully or partially funded project.

22	HHC	Health care facilities	Provide a new or expanded health care facility	Consider establishing an inventory of services offered by the Jack D. Weiler Hospital of Montefiore Hospital and Medical Center, and Jacobi Hospital. Both offer similar patient services. Assess each one for their relative strengths and create a system where one hospital is able to offer a service that the other does not. Any patient requiring that service could be referred to the hospital that offers it. This would eliminate duplicative services and long waits.	The Jack D. Weiler Hospital of Montefiore Hospital and Medical Center is located at 1825 Eastchester Road and Jacobi Hospital is located at 1400 Pelham Parkway South	

Expense Requests related to Health Care Facilities and Programming (as provided by the Community Board)

09	DOHMH	Programs to address other public health issues	Other programs to address public health issues	Develop a public relations campaign for providers, like Montefiore Hospital, to assemble educational pamphlets regarding the appropriate usage of emergency rooms.		
10	DOHMH	Healthy life styles programs	Create or promote programs for education and awareness on nutrition, physical activity, etc.	Bronx Community Board #10 is medically well served. However, we still encounter situations where obesity, heart disease and diabetes surface in every area of our Community Board. Our Board has embarked upon a series of healthy walk challenges and have sponsored two walks in the community. We have been supported in these endeavors by HHC (Jacobi Hospital) and Montefiore Hospital. The Board would like to see an expanded City presence at these events and looks to NYC DOH and MH to be of assistance in this area. For instance, they could provide copies of the many educational materials produced by the agency, and have a high ranking agency official accompany us on a walk, and alert agency employees in the area and invite them to participate.

		<i>pest control services</i>	<i>mosquito populations</i>	<i>service area are surrounded by water. The mosquito population is generally high. When spraying takes place, it is usually in the marshland areas around Pelham Bay Park and that only occurs when there is evidence of an infestation We in Community Board #10 would like to see the NYC DOH and MH take a more proactive view of the situation and treat the shoreline communities of Edgewater Park, Silver Beach, Co-op City, City Island, Throggs Neck and Ferrypoint, as a matter of course, whenever the West Nile Virus season occurs.</i>		
35	DOHMH	<i>Animal and pest control services</i>	<i>Other animal and pest control requests</i>	<i>As property developers move forward with construction projects in the areas north of our Community Board in Westchester County, entire habitats for animals are destroyed. This forces the animal population of deer, skunk, possum, raccoon and coyote to move toward the safer and food plentiful environments of the northeast Bronx. Throughout every neighborhood in our Community Board, we have received reports of animals foraging and making homes in parks and people's backyards. There is no City program to deal with this situation. Our Board believes that NYC DOH and MH should partner with known humane organizations to develop a capture and release program, to move the animals to more suitable environments, when they are encountered in human population centers.</i>

4.1. Health Care and Human Services Needs and Requests

4.1.2. Community District Needs and Requests Related to Facilities and Programming for Older New Yorkers

The Community Board provided the following high level comments and background on the District's needs:

Bronx Community Board #10 has many senior centers and a meals on wheels program. We are concerned that those centers are located in safe ad clean environments, and that the equipment (food service, phones, computers) within them are functioning. We are also concerned that the Meals on Wheels programs in the Board service area are fully funded.

The Community Board submitted the following budget requests:

Budget Requests are listed for informational purposes only. OMB maintains the definitive list that may have more updated information on request for agencies, published in its Register.

4.1. Health Care and Human Services Needs and Requests

4.1.3. Community District Needs and Requests Related to Facilities and Services for the Homeless

The Community Board provided the following high level comments and background on the District's needs:

Bronx Community Board #10 is in the extreme northeast Bronx. Its business services are concentrated in several commercial areas: E. Tremont Avenue, Crosby Avenue, Westchester Square, Co-op City and City Island. DHS placed a shelter for 95 women and children in a former hotel, on the outskirts of our Board area. It has no laundry facilities on site, so the women must take two buses to reach the nearest laundry mat. There are no cooking facilities (microwaves in the rooms) flouting the requirements of the Comptroller's Memorandum governing Emergency Contracts that states such facilities must be located in rooms where women with children or pregnant women are domiciled. There is anecdotal evidence from the community at large, that the meals offered to the clients at the shelter are unappetizing and that they are often discarded. One of the contractual goals of the shelter operators is to provide the clients with opportunities for job training and employment. The Board enjoys the services of a NYS Department of Labor Job Developer. The shelter operator has been apprised of this service, yet there are few referrals.

The Community Board submitted the following budget requests:

Budget Requests are listed for informational purposes only. OMB maintains the definitive list that may have more updated information on request for agencies, published in its Register.

Capital Requests related to Facilities and Services for the Homeless (as provided by the Community Board)

Priority numbers apply to capital budget requests from all policy areas. A complete list of capital budget requests by this Board sorted by priority can be found in Section 5.1. of this document. 09	DHS	Facilities for the homeless	Upgrade existing facilities for the homeless	Security at the three homeless shelters in the Board, Crystal's Place at 555 Hutchinson River Parkway, Town and Country at 2244 Tillotson Avenue and the Acacia shelter at 1564 St. Peters Avenue should be reviewed. The Board has received concerns about the ability of the contractual security staff to handle situations at the shelter. In the case of the shelter at 555 Hutchinson river Parkway, DHS Police visit the site already. However, in light to the recent killing of a staffer at another shelter not in our Board, we believe that the entire security set up should be reviewed.

4.1.4. Community District Needs and Requests Related to Services and Programming for Low-Income and Vulnerable New Yorkers

The Community Board provided the following high level comments and background on the District's needs:

Many residents of our Board's service area have come to rely on food stamps (SNAP) assistance. The Board is interested in ensuring that this program is adequately funded.

The Community Board submitted the following budget requests:

Budget Requests are listed for informational purposes only. OMB maintains the definitive list that may have more updated information on request for agencies, published in its Register.

4.2. Youth, Education and Child Welfare Needs and Requests

Main Issue

After school programs

The Community Board provided the following explanation for the above issue:

There are many children in our Board service area whose parents are working. Some come from single parent homes. The After School Programs that we have in our area are very good and they need to be funded properly, so that they can expand their efforts.

Community District Needs and Requests

4.2.1. Community District Needs and Requests Related to Educational Facilities and Programs

The Community Board provided the following high level comments and background on the District's needs:

PS 71 at 3040 Roberts Avenue requires an expansion in the form of an annex. There is a growing population in the area and the school is considered to be a very good one. Therefore an annex is needed to accommodate the growth in population.

The Community Board submitted the following budget requests:

Lehman Campus, should be one that is medically related. The Board further felt that the students could benefit from internships at the above institutions.	3000 E Tremont Avenue

Also fund youth programs like Renaissance, Ladders for Leaders and the Beacon Programs for after and out of school initiatives.		
13	DYCD	Youth workforce development	Provide, expand, or enhance the Summer Youth Employment Program	The SYEP Program is an excellent initiative that prepares young people for the world of work. This Community Board has utilized the services of the young people from this program and knows of several instances, where the youth participants have gone onto enriching employment experiences. The Program should be expanded and enthusiastically funded.

4.3. Public Safety Needs and Requests

Main Issue

Public safety facilities, e.g. precinct or fire houses

The Community Board provided the following explanation for the above issue:

Industrial and behavioral sciences have produced study after study indicating that an employee's work environment plays a major role in their commitment to their job and their productivity. The current Precinct building is an unpleasant environment for the officers and detectives, and it needs to be changed. We believe that the morale of the officers, and detectives will be markedly improved if the Precinct were to be relocated.

Community District Needs and Requests

4.3.1. Community District Needs and Requests Related to Policing and Crime

The Community Board provided the following high level comments and background on the District's needs:

The 45th Precinct lost its dedicated drug module. It was split in half between the 45th Precinct and the 43rd Precinct. This split limited the effectiveness of the anti-drug effort in our Community Board. The Board would like to see the unit returned in its entirety to the 45th Precinct and if this is not possible, it should be combined with that of the 49th Precinct. The NYPD Firing Range at Rodman's Neck must be completely enclosed in a dedicated building, so that the surrounding communities are no longer exposed to the noise associated with the practice firings.

The Community Board submitted the following budget requests:

4.3.2. Community District Needs and Requests Related to Emergency Services

The Community Board provided the following high level comments and background on the District's needs:

FDNY - Ensure that the buildings that house the fire stations and EMS units are in good physical shape. Assess and report on the number ambulances that are owned by the FDNY and private organizations such as Montefiore Hospital. What is the average life span of an ambulance? What are the number of Advanced Life Support or ALS ambulances serving the District.

4.4. Core Infrastructure and City Services Needs and Requests

Main Issue

Water runoff and flooding

The Community Board provided the following explanation for the above issue:

Bronx Community Board #10 is a water bound board. Almost all of its communities are bounded by the East River, Long Island Sound and Eastchester Bay. During Hurricane Sandy several of our communities, most notably City Island and Edgewater Park, were severely damaged. Had the wind not changed course, the damage to our Community Board's waterfront communities would have been devastating. The Board is interested in seeing the protective systems installed that will serve as breaks to storm surges. Additionally, the Board would like to see the sewers assessed to determine if they are sized correctly to handle the very large storm flow that will come onto the land.

Community District Needs and Requests

4.4.1. Community District Needs and Requests Related to Water, Sewers and Environmental Protection

The Community Board provided the following high level comments and background on the District's needs:

Bronx Community Board #10 has experienced severe damage to several of its communities during Hurricane Sandy. We are surrounded by the water bodies of Eastchester Bay, Long Island Sound and the East River. It is expected that any major storm will cause considerable damage to our communities. Our Board would like to see a joint DEP/DOT program to survey our areas and install storm breaks like earthen berms and sea walls. If a major hurricane type storm were to hit our Board, we would experience storm surges that would deposit massive amounts of water on land causing massive damage and flooding that would result in stagnant pools of water that will take days to drain, because the sewers are inadequate to meet the increased demands of drainage. Neighborhoods like City Island would experience flooding on streets like Tier, Bay, Fordham, Hawkins, Carroll, Centre, Winter, Early, Pell, Reynolds, Pilot, Marine, Buckley, Horton, Schofield, Rochelle, Beach, Kilroe, Sutherland and Terrace Streets; King Avenue and Fordham Place are inadequately protected. In Edgewater Park, which has a sea wall, 1st, 2nd and 4th Avenue, Pennyfield Avenue and Soundview Drive are vulnerable; Silver Beach, which also has a sea wall, is also prone to flooding. Acorn, Beach, Ceder, Daisy, Elm, Fern, Geranium, and Hazel Streets, Ivy, Jasmine, Edgar, Dare, Casler, Bevy, Alan, Schuyler Places, Indian Terrace, and the campus of SUNY Maritime College, are all prone to flooding. Within Locust Point, Locust Point Avenue, Tierney Place, Longstreet Avenue and Hatting Avenue, the Hammond Cove and Locust Point Marina area, and Calhoun and Schurz Avenues in Throggs Neck will be badly affected, as well as Clarence and Randall Avenues and Country Club. The end of Lafayette Avenue in Ferry Point and all of Ferry Point Park will be flooded. The Board would like to see that both agencies develop a plan to stop the storm water surges and to provide a sewer system that will be able to handle them.

The Community Board submitted the following budget requests:

4.4. Core Infrastructure and City Services Needs and Requests

4.4.2. Community District Needs and Requests Related to Sanitation Services

The Community Board provided the following high level comments and background on the District's needs:

Bronx Community Board #10 enjoys one of the highest rates of recycling in the City. Co-op City, the largest housing cooperative in the State recycles and processes its own waste and we are still limited to one day a week pick up. For several years, the Board has been requesting an additional day for pickup. We believe that we have proven our commitment to the City's recycling goals and therefore, request another day.

We need a commitment on the part of DOS to it keep the area clean. Garbage receptacles are needed along the Hutchinson River Parkway Service Road going south from Lafayette Avenue to Ferry Point Park.		

4.5. Land Use, Housing and Economic Development Needs and Requests

Main Issue

Small Business services

The Community Board provided the following explanation for the above issue:

Bronx Community Board #10's communities are characterized by older shopping areas along Crosby Avenue, Westchester Avenue, City Island Avenue, Dreiser, Bartow and Einstein Loops in Co-op City. These older shopping districts are competing with malls in Throggs Neck and Bay Plaza that offer free parking to their patrons. A Business Improvement District (BID) is needed in all of the above areas, aside from Westchester Square, where one already exists. A BID will allow these areas to re-imagine themselves and offer goods and services to their members, while strengthening the economic backbone of the communities.

4.5. Land Use, Housing and Economic Development Needs and Requests

4.5.2. Community District Needs and Requests Related to Housing Needs and Programming

The Community Board provided the following high level comments and background on the District's needs:

Our Board is home to Throggs Neck Houses, a multi-building NYCHA housing development that is in need of a general upgrade, especially with respect to the roofs, lighting and security doors. Mold and mildew have become a problem in the dwelling and public areas of the buildings. Attention must also be paid to the foundation walls, which due to site settlement, are compromised.

This is a large public housing development and it requires assistance in several areas. The roofs require inspection and repair or replacement. Many of the locks to the entrance doors of the buildings require replacement, with a new generation of magnetic locking devices. The public lighting throughout the development must be enhanced. NYCHA must make a commitment to hire sufficient staff and to provide equipment for the development to function at a high level. PSA 8, of NYPD's Housing Bureau must have a sufficient number of officers and vehicles to patrol the development.

4.5. Land Use, Housing and Economic Development Needs and Requests

4.5.3. Community District Needs and Requests Related to Economic Development

The Community Board provided the following high level comments and background on the District's needs:

The Soundview community has been chosen as the site for the anchorage for commuter ferry services to Manhattan from the Bronx. Bronx Community Board #10 believes that an additional anchorage should be developed at Ferry Point Park to serve the Co-op City, Throggs Neck, City Island, Country Club and Pelham Bay communities of the north east Bronx. Existing bus lines from the above areas already serve the Ferry Point Park community and the park itself, features a large parking lot. Additionally, the eastern portion of Ferry Point Park has been developed as the Trump Links, golf course. The Board envisions golf enthusiasts using the ferry to reach this site.

4.6. Transportation Needs and Requests

Main Issue

Other/Our Board is a water bound Board. There are few if any sea walls or other storm surge breaks. In the event of hurricane, significant portions of our board will be damaged. With this this submission, we are asking DOT to engage in an analysis of the storm break needs and to install the appropriate storm break infrastructure.

The Community Board provided the following explanation for the above issue:

Our Board area experiences flooding problems whenever we have a major storm. There are virtually no barriers to storm surges. In a hurricane situation, significant portions of our Board will be severely damaged. This is why the issue of storm resiliency is so important to our Board.

Community District Needs and Requests

4.6.1. Community District Needs and Requests Related to Traffic and Transportation Infrastructure

The creation of such parking would allow them to remain competitive. Additionally, the Westchester Square community could benefit from a municipal lot, possibly located in the Westchester Square Industrial Business Zone. The MTA New York City Transit recently built four new stations for the IRT #6 Train in our Board's area and the MTA Metro North Railroad is planning a station for Co-op City. Main Issue

Quality of parks and park facilities

The Community Board provided the following explanation for the above issue:

Bronx Community Board #10 is home to the largest park in the City's inventory, Pelham Bay Park. Additionally, it has another large park in Ferry Point, home to the City's newest golf course, Trump Golf Links. It also has a variety of smaller parks that are used regularly and a Marina in Hammond Cove and Orchard Beach. 22	DPR	Park maintenance and safety	Enhance park safety through design interventions, <i>e.g. better lighting</i>	construction of Amendola Plaza with protective fence to keep out litter. A riverfront park should be created in Co-op City, along the banks of the Hutchinson River Parkway. Ferry Point Park East (home of the new golf course) is linked with Ferry point Park West by the "Ring Road ". With opening of the golf course and the large number of soccer players using the western portion of the park, a security fence separating the park land from the road is needed to enhance safety.		
23	DPR	Street trees and forestry services	Forestry services, including street tree maintenance	There is a critical need to adequately fund and staff the Forestry Unit of the DPR to prune the many trees in the Board's service area. Over 70% of the Board is green cover. Every year tree limbs become entangled in the overhead power lines or diseased limbs fall on people's homes and cars. More tree pruning staff re needed to take care of these matters. There is a need to adequately fund and expand the sidewalk tree root program. the root syste of the old growth trees causes the sidewalks to buckle, creating trip hazards. To eliminate this problem, this program must be adequately funded.		

4.7. Parks, Cultural and other Community Facilities Needs and Requests

4.7.2. Community District Needs and Requests Related to Cultural and other Community Facilities and Programming

The Community Board provided the following high level comments and background on the District's needs:

The City Island Nautical Museum is located in a former school building and is over one hundred years of age. It houses a priceless collection of artifacts and memorabilia of City Island's fabled nautical past. The building is in need of new windows, painting, a retaining wall and new fencing. It is estimated that the costs will be \$130,300.00. The Board is interested in seeing this museum operate in a safe and climate controlled building, capable of exhibiting City Island's treasures.

The Community Board submitted the following budget requests:

4.7.3. Community District Needs and Requests Related to Library Facilities and Programming

The Community Board provided the following high level comments and background on the District's needs:

The Westchester Square Library is scheduled for a new building. It is an innovative design that the Board supports and the community welcomes. Funding is in place and the Board looks forward to its construction. The Board expects that the library will be a state of the art facility that will offer innovative and popular programs. The Board is home to several other fine libraries and we have always advocated for their funding. It is hoped that they will receive the needed cash to carry on their great work.

At this time, the Community Board does not have any budget requests for this need category.

4.7.4. Community District Needs and Requests Related to Community Boards

The Community Board provided the following high level comments and background on the District's needs:

For many years, successive Mayoral administrations did not fund the Community Boards. Thankfully, the City Council recognized their importance and funded them. The present administration has funded the Boards and we are grateful to Mayor de Blasio. However, we could be so much more effective if the funding were increased.

At this time, the Community Board does not have any budget requests for this need category.
