BROOKLYN, NEW YORK 11214

MARNEE ELIAS-PAVIA
District Manager

Brooklyn Community Board No. 11 District Needs Statement

On October 29, 2012, our city faced one of the worst natural disasters to hit our shores. Hurricane Sandy devastated communities and neighborhoods; however, we found new respect and admiration for those who protect our city and the countless volunteers who risked their safety to help those in need, with no regard for their personal safety, they shined through our darkest hour.

Our city is still recovering from Sandy's devastation and is now faced with rebuilding and preparing our city for future storms and weather events.

Community Board 11 will continue cooperating with the Administration and is prepared to do what is necessary to make our city a stronger and more resilient place to live, work, and raise our families.

INTRODUCTION

Community Board 11 encompasses four major neighborhoods: Bensonhurst, Mapleton, Bath Beach, and Gravesend. The north, south, east, west limits of 61st Street, Gravesend Bay, 26th Avenue, Avenue U, McDonald Avenue, and 14th Avenue bind the Board. The ethnic makeup is approximately 50% White, 1% Black, 35% Asian, and 13% Hispanic. The community is ranked the highest citywide for the share of population living in racially integrated tracts. The population is by no means static, as evidence by the ongoing settlement of Asian, Russian and Hispanic immigrant families as well as people from other sections of Brooklyn.

The economic level of the population is best defined as middle class with a considerable blue-collar emphasis.

The housing stock consists of one and two family homes with pockets of six story buildings of 50-60 units; four and five story walkups of 16 to 40 units built in the late 1920's.

In 1652, Cornelius van Werkoven, a representative of the Dutch West India Company, purchased from Indians the land that would become the town of New Utrecht. In 1783, with the end of British occupation, residents erected a "liberty pole" in front of the New Utrecht Reformed Church, which attained landmark status on January 13, 1998.

Along with the church, the Landmarks Preservation Committee designated the New Utrecht Reformed Dutch Cemetery landmark status. The cemetery located at 8401 16th Avenue established around 1653, before the church was organized, is an important reminder of the town's earliest period of development. The cemetery was centrally located on the village's "Main Street", now 84th Street. It encompasses approximately one acre of land and contains gravestones and memorials from the 18th, 19th, and 20th centuries. It includes the plots of the earliest New Utrecht families, including the Van Brunts, Cortelyous, Woenhovens, Cropseys and Bennetts, a communal unmarked grave of American Revolutionary War Soldiers, and an area near the intersection of today's 16th Avenue and 84th Street, where church members of African descent were buried. In the past three centuries close to 1,300 people have been interred in this cemetery.

By the late 1870's, many wealthy families had begun to build summer homes and yacht basins in the wooded farming community.

Bensonhurst gets its name from the Benson family farm, which had been part of the cabbage-end and potato-growing Township of New Utrecht, and in 1890, was sold in 20-by-100 foot lots.

For a while, it looked like Bensonhurst might become a second Coney Island. An amusement park called Bensonhurst-by-the-sea, with racetracks and luxury hotels were built in the late 1890's, but it never succeeded, and today none of the grandeur of the seaside resort remains.

In 1915, with the completion of the Fourth Avenue subway line, many Italian and Jewish immigrants from Manhattan's lower east side moved to Bensonhurst and began building homes that fanned out from the liberty pole. Many descendants of the neighborhoods' original families remain. Today, along with that Italian majority, a small Jewish community remains in Bensonhurst, as well as some Irish and Polish families. Arrivals that are more recent have come from Puerto Rico, Mexico, China, Taiwan, Viet Nam, Korea, Russia, and Pakistan.

During the construction of the Belt Parkway in the late 1930's, Community Board 11's shoreline from Bay Parkway north to Bay Ridge was vertically bulkheaded, which provided a waterfront promenade but inhibited direct access to the water. The Belt moved inland from Bay Parkway to Coney Island Boat Basin leaving a large unbulkheaded area on its waterside.

The construction of the Belt Parkway led to filling in the lowland areas of Gravesend and Bath Beach. Both communities subsequently realized substantial increases in population.

Commercially, Community Board 11 is well served, as is all southern Brooklyn by 86th Street. This comparative commercial shopping street running from 14th Avenue to 25th Avenue is extremely viable and doing well considering the fiscal climate that it shares with the nation. There are few vacancies and rents are high. Additional strong commercial strips serving the Board are 18th Ave, Bay Parkway, New Utrecht Avenue, Avenue "U", and Bath Avenue.

The Capital and Expense Budget priorities submitted for Fiscal Year 2014, were carefully targeted to meet the needs of the entire community. Planning for Fiscal Year 2015 will continue the Board's efforts to get adequate governmental assistance for all of Community Board 11.

PARKS

During past fiscal years, we saw the renovation of four of our local parks, Seth Low Park, the 17th Avenue Park at Shore Parkway, Milestone Park that includes Garibaldi Park and Satellite Park at New Utrecht Avenue and 71st Street. These four rehabilitation projects have enhanced our community significantly. Bensonhurst Park and Bath Beach Playground are in need of repairs. Both are in need of new equipment and paved surfaces. Residents of our neighborhoods utilize the parks in great numbers. There is a tremendous need for additional personnel to maintain our parks.

One problem issue has been in the area of forestry. While we have had many new trees planted under the Million Trees NYC Program, there still exists a 10-year waiting time to get trees pruned.

Additionally, there are many locations where mature trees were removed leaving stumps and raised sidewalk flags creating trip hazards and potentially dangerous conditions.

Community Board 11 supports the reconstruction and rehabilitation of the Shore Parkway Promenade from Bay 8th Street to Bay Parkway. This section of the promenade is in need of mitigation and resiliency efforts to protect the Belt Parkway, residential properties, businesses, and

infrastructure from future storms. The parkway itself needs to be protected from storm surge and wave action so that first responders and the military can move people and goods during an emergency.

DEPARTMENT OF TRANSPORTATION

The Department of Transportation has prioritized many streets in our district, which are in need of capital improvements. High priority should be given to the inclusion of the streets surveyed by this department.

Provisions should be made for a milling machine as standard equipment to eliminate ponding and flooding conditions in our district.

The Department of Transportation needs to address pedestrian safety on Bay Parkway from Shore Parkway to 61st Street, in order to prevent any additional fatalities.

During FY15, the Department of Transportation resurfaced 86th Street from Stillwell Avenue to 14th Avenue. Additional improvements are needed to this busy commercial corridor including bike racks, benches, and curbing. In addition, pedestrian safety needs to be addressed under the elevated structure on 86th Street especially at the Bay Parkway and 20th Avenue bus stops.

As our priorities reflect, there is a need for the installation of high-density lighting on New Utrecht Avenue between 61st Street and 86th Street. This commercial area is the only corridor located under the elevated train that does not have these lights.

With the increase in population and vehicular traffic, and proposed new development, planning needs to be initiated to allow access to the eastbound Belt Parkway from Shore Parkway. The current configuration of the entrance does not permit vehicles to gain entrance once exiting the shopping center. Therefore, they must travel on local streets to gain access.

DEP

Planning, including storm, sanitary and drinking water data would be useful for the waterfront area running east off Bay Parkway. This is needed to determine the extent of development the area can reasonably sustain.

Drainage studies need to be initiated to determine the cause of a new flooding location in the following area: Bay Parkway on the west, 26th Avenue on the east, Shore Parkway E/B Service Road on the south and Benson Avenue on the north including the Belt Parkway between exits 5 and 6.

SANITATION

There is a need for additional personnel and equipment, specifically to handle cleaning activities. Too often on alternate side of the street sweeping days, no sweeper appears due to mechanical failure.

There is also a need for an increase in Sanitation Police Enforcement Agents to address the illegal posting of signs on public structures and the improper use of corner litter baskets, not only within our community but citywide. The placement of commercial and residential refuse in and alongside these baskets is a blight on our community and a major quality of life issue.

POLICE

Over a period of years, the manpower level at the 62nd Precinct has increased. However, a need for increased manpower still exists to a level where the patrol services can adequately handle emergency calls. Last year our precinct handled 53,748 calls for service and the number of calls is on the rise. It should be pointed out that at times only three radio cars patrol our approximately one hundred miles of streets with an estimated 182,000 people.

Our community has a large population of day laborers that congregate in front of residential, as well as commercial locations. The Mayor's Office appointed the New York City Temporary Commission on Day Laborer Job Centers. The Commission examined the feasibility of fostering public/private partnerships to develop and implement job centers for day laborers in New York City. After a process of study and review, the Commission will produce a report on its findings and recommendations on whether such initiatives are feasible.

If our community is chosen as one of the locations for the job centers, how will the Police Department keep the day laborers off the street and into the job centers?

Over the last several years, area residents have ongoing concerns regarding the proliferation of large tractor-trailers travelling throughout the community. While legislation has been enacted to increase the penalties to truckers that are off the designated truck route, additional enforcement personnel are needed to ensure compliance.

There is also a need for aggressive enforcement of overnight commercial parking on our streets. Below are the complaints filed via the 311 system,

with 5 months left in the calendar year, we are on track to have the highest amount of complaints in 2014.

FIRE

Community Board 11 supports upgrades to the communication equipment utilized by the Fire Department to ensure the safety of its members.

We further ask that no cuts be made to the Fire Department's budget.

HOUSING PRESERVATION AND DEVELOPMENT

Community Board 11 is home to one of the largest populations of senior citizens. A portion of our community has been designated as a Naturally Occurring Retirement Community (NORC). It is vital that adequate assistance be given to the Board through programs administered by the Department of Housing Preservation and Development, particularly Article 8A loans and increase community development funding for housing programs. Additionally, the Department should work closely with the housing groups in our area.

HEALTH & HOSPITALS CORPORATION

Community Board 11 is in need of an ambulatory health care facility. Long distances hamper the elderly population from easy access to Coney Island Hospital, Lutheran or Maimonides Hospital. With the closing of Victory Memorial Hospital, existing emergency rooms are over capacity. It is vital that health care be made more accessible by having an outreach clinic in Community Board 11.

DEPARTMENT OF HEALTH

The Child Health Care Station at 8658 16th Avenue has been closed. Families from our area must go to Luna Park for "well baby care".

The Health Department must open a new facility in our area to accommodate the needs of the families in our area.

HUMAN SERVICES

While the need for health and day care services in this area have been well documented by our budget requests, services to prevent child abuse and neglect are emerging, as a priority need. Expansions of services to older adults prevent unwarranted evictions and other housing problems are also a need.

Community Board 11 supports programs for pregnant and parenting teens. Programs such as these have been introduced recently and are needed in this area.

YOUTH SERVICES

Community Board 11 supports a variety of activities for youth, including community based counseling, recreational, tutorial, and cultural programs.

However, the existing needs in our community far exceed the services available. Due to the many problems faced by youth and the lower socioeconomic character of our community today, increased services are needed in all of the above-mentioned categories.

Additional needs, which must be addressed, are free/low cost day care programs, job opportunities for youths, summer programs/day camps at a reasonable cost, and, due to the growing immigrant population, special programs for immigrant youth.

BUILDING DEPARTMENT

There is a need for an increase in the number of inspectors.

There has been an increase in the number of illegal activities, such as non-approved construction, alterations, and zoning violations and the lack of inspectors leads to a slow response time in addressing these illegal activities. In addition, once a violation is written, there is little follow-up on re-inspection and enforcement.

Community Board 11 believes that the Buildings Department needs to be given increased enforcement authority. In Community District 11, there is a proliferation of illegal curb cuts and front yard parking pads, which have received multiple violations.

We believe that the Buildings Department should be permitted to make the necessary repairs to restore these illegal curb cuts and bill the property owner(s).

This issue needs to be addressed in order to increase water absorption and permeability

Changes need to be made regarding the issuance of building permits. Property owners with Building Department violations should not be issued any new building permits without first resolving the outstanding violations.

CITY PLANNING

City Planning re-zoned a substantial portion of the R6 designation within Community Board 11. We urge City Planning to move forward with the contextual rezoning of the Bath Beach area bounded by 14th Avenue to Bay Parkway, and 86th Street to Shore Parkway.

DEPARTMENT OF INFORMATION & TECHNOLOGY

Community Board 11 supports the 311 system. While the newly released 311 Online Service Request map is an innovative tool for our Community Board that provides insight. However, additional access to more detailed information regarding complaints and dispositions would facilitate follow-up and an ability to monitor problematic locations.

TAXI & LIMOUSINE COMMISSION

Over the past several years communities like ours have seen an increase in the number of livery base stations. Many of these locations are in business districts. Drivers often are parking in metered spaces that are valuable to area small businesses. Increased enforcement agents must be hired to address this problem, in order to monitor that the off-street parking rules are being adhered to.
