INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and the Community Board Budget Requests (Budget Requests) are Charter requirements and an integral part of the City's budget process. When developed through informed planning and careful consideration, CD Needs Statements and Budget Requests can play an important role in consultations of community boards with agencies, elected officials and other key stakeholders on a broad range of local planning and budget priorities. These tools also provide a valuable public resource for neighborhood planning and research purposes, and are used by a wide audience seeking information about New York City's diverse communities.

This year, for the first time, community boards electronically submitted a CD Needs Statement combined with their Budget Requests. The goal of these improvements is to simplify preparation of both documents for the community boards and to make the information community boards provide more easily accessible for City agencies and other stakeholders. Simplified and more efficient processes will allow all parties involved in the budget process to consider budget decisions more thoroughly, with better results for all New Yorkers.

This report represents Brooklyn Community Board 8's Statement of Community District Needs and Community Board Budget Requests for Fiscal Year (FY) 2017. This report contains the formatted but otherwise unedited content provided by the Community Board which is displayed in italics.

Some community boards provided substantive supplemental information. This supportive material can be accessed by clicking on the links provided in the document or by copying and pasting them into a browser.

2. OVERVIEW OF COMMUNITY DISTRICT

Brooklyn Community Board 8 provided the following overview of their district:

Community Board No. 8 encompasses the neighborhoods of Prospect Heights, north Crown Heights, and Weeksville. The community is bounded by Atlantic Avenue on the north, Ralph Avenue on the east, Eastern Parkway on the south and Flatbush Avenue on the west.

District 8 is one of the most rapidly evolving neighborhoods in Brooklyn. In addition, it remains one of the most populated according to land mass despite a small decrease in population according to results of the 2010 Census. This decrease, however, will rapidly change once the Atlantic Yards Project aka Pacific Park Brooklyn buildings currently under construction are completed. The dynamically changing population is creating both new challenges and needs. Once an economically and culturally diverse community, there are noticeable shifts in economic status as well as ethnic and cultural make-up. An increased number of luxury condominium developments and other large-scale development projects are leading to shifting racial and class dynamics in the community. As we move forward with the historic designation of much of the District in the forms of the Crown Heights North Historic District, Park Place Historic District, Prospect Heights Historic District, and the newly proposed Crow Hill Historic District, have also contributed to the changes and challenges as well. District 8 has become one of the latest “hot” destinations in Brooklyn. The numbers of new restaurants and bars have tripled in the last five years and business patronage is also at an all time high. Competition for affordable commercial space is causing additional chasms to form between upper and lower tier businesses and creating an influx of businesses that require alternative money making strategies such as possession of a liquor license to meet the overhead operating costs. Additionally, competition between market rate and rapidly declining affordable housing options is also contributing to the rapidly changing demographic, with fewer and fewer affordable options available. In fact, according to recent statistics Crown Heights leads the city in rent increases, thus creating a further requirement to maintain an affordable housing stock for long-time residents that are being priced out.

We are hoping that the recently approved Crown Heights West Rezoning Proposal and historic designations will preserve our beautiful historic community while also addressing the glaring need for truly affordable housing. A community with a solid housing stock, good transportation connections, and with easy access to a number of cultural institutions such as Brooklyn Botanic Garden, the Brooklyn Children’s Museum, Brooklyn Museum of Art, the Brooklyn Public Library at Grand Army Plaza, Jewish Children’s Museum, Weeksville Heritage Center and several others leads us to believe that more positive growth should be on the horizon.

Despite the many positives within the District, there are many blaring challenges that must be faced and overcome. Included in these challenges are the enormously high poverty rate amongst minority and foreign born residents; the glaring unemployment rate of adult minority males; the alarming discomfort of residents because of police and safety uncertainties; a alarmingly high decrease in affordable housing units available for seniors and low and middle-income residents and the severely increasing cost of apartment rentals; lack of medical services and hospital coverage; and an uncertain public school options due to constant school closures and co-locations. These issues require special consideration and priority from government officials. Community Board No. 8 is committed to participating in the formulation of plans to address service delivery, housing, infrastructure and over all quality of life needs and concerns of the residents within the district.

The strategy detailed below will facilitate achievement of Community Board No. 8's goals for Fiscal Year 2017 and beyond.

3. MAIN ISSUES

As part of this year's process, community boards were asked to select from a list the three most pressing issues facing their district. Brooklyn Community Board 8 identified the following three issues:

- *Affordable housing*
- *Quality of life issues and neighborhood preservation*
- *Other <I>Please specify below</I>| Public Safety (police/community relations, gang activity, and crime)*

Brooklyn Community Board 8 provided the following explanation for their choices:

Preserving the character of our community from out of scale development projects is one of our greatest priorities. Historic designation of certain areas is designed to assist with this goal, but it does not protect the entire community from large scale luxury development designed to further alienate certain populations from the community. Development must be done in such a way that the neighborhoods are preserved and that affordable housing is maximized. Construction of luxury co-op buildings have helped to elevate rents to levels that long term residents cannot afford. The Federal AMI for a family of four exceeds the AMI for District 8. Currently, the affordable housing stock is diminishing at an alarming rate, with units being decommissioned from rent stabilization and with private units rising at the fastest pace throughout the city. That being said, public safety concerns are on the rise as the gentrifying population and existing population are occasionally at odds with one another over services provided. Furthermore, especially among the eastern end of the District that is now currently being gentrified, crime continues to rise along with the growth of youth gang activity. The police and community appear to have distinct and opposing desires on how to deal with this problem, and this leads to tensions between residents and the officers assigned to protect them. Well kept homes and nicely preserved blocks do not mean much when the residents have safety concerns and are afraid to move about freely due to concerns about friction between police and the community, and also concerns about crime and gang activity.

4. SUMMARY OF COMMUNITY DISTRICT NEEDS AND COMMUNITY BOARD BUDGET REQUESTS

Community Boards were asked to identify their district's needs related to the following seven policy areas:

- Health Care and Human Services;
- Youth, Education and Child Welfare;
- Public Safety;
- Core Infrastructure and City Services;
- Land Use, Housing and Economic Development;
- Transportation; and
- Parks, Cultural and other Community Facilities.

Based on the needs identified, community boards then had the opportunity to make budget requests to address these needs.

The following sections describe the specific needs and budget requests of Brooklyn Community Board 8 for FY 2017.

4.1. Health Care and Human Services Needs and Requests

Main Issue

Services to reduce homelessness

The Community Board provided the following explanation for the above issue:

Community Board No. 8 has a high resident displacement rate due to rising rents. We also have a large number of individuals living in homeless shelters that need permanent housing. If services are in place to reduce the rate at which rents are increased, we can stem the tide of the path to homelessness.

Community District Needs and Requests

4.1.1. Community District Needs and Requests Related to Health Care Facilities and Programming

The Community Board provided the following high level comments and background on the District's needs:

Since the closure of St. Mary's Hospital many years ago, Community Board 8 has been under-served in terms of health care. We lack a hospital and trauma center, and residents are forced to travel out of the district for care. There is a major healthcare crisis affecting the residents of Central Brooklyn due to budget cuts on various levels, and consequently, citywide, the healthcare system has been decimated with the number of hospitals closures, currently slated for closure, or recently saved but still struggling to provide adequate services. Hospitals strapped for cash are reducing services or lack the equipment necessary to treat some patients, leaving many without medical attention for so long that their ailments become worse and even more difficult to treat.

The Community Board submitted the following budget requests:

Budget Requests are listed for informational purposes only. OMB maintains the definitive list that may have more updated information on request for agencies, published in its Register.

4.1.1. Community District Needs and Requests Related to Health Care Facilities and Programming

Priority	Agency	Need	Request	Request Explanation	Location	Supporters
02	HHC	Health care facilities	Provide a new or expanded health care facility	Community Board 8 lacks a hospital sufficient for caring for a multitude of ailments. Funding should be made available to upgrade our medical service centers and also to build a large scale medical facility that addresses the needs of the community.		

Expense Requests related to Health Care Facilities and Programming (as provided by the Community Board)

07	DOHMH	Developmental, mental health and substance abuse prevention programs	Create or promote programs to de-stigmatize mental health problems and encourage treatment	There is a growing need for outpatient mental health services among children and adults alike. The stigma of admission of having a mental illness such as depression, anxiety, or bipolar disorder to name a few is great, thus preventing those suffering from symptoms to seek help. People should not be forced to suffer in silence lest they be stigmatized by their family and peers. Educational and support services are essential to maintaining the well-being of our citizens regardless of age. Services geared toward assistance coping with mental stresses from a myriad of sources should be instituted. These services should include treatment and counseling for grief and bereavement issues, societal stress, anxiety, depression, low self-esteem, anger problems, and others.		
08	DOHMH	Animal and pest control services	Reduce rat populations	With the large number of development projects scattered throughout the District, and renovation projects ongoing in our historic districts, the number of rodent complaints has skyrocketed. A greater number of exterminators are needed to quickly address baiting concerns and identify rodent havens and burrows.		
51	DOHMH	Programs to address HIV/AIDS or other infectious diseases	Provide more HIV/AIDS information and services	Central Brooklyn is still considered the epicenter for HIV/AIDS infections. As such, adequate education should be provided regarding the use of prophylactics and engaging in safe sexual practices.		
63	DOHMH	Healthy life styles programs	Create or promote programs for education and awareness on nutrition, physical	District 8 is severely plagued by other health ailments including diabetes, heart disease, asthma, stroke, obesity, and many other conditions that require substantial medical care for those afflicted. The inability to afford healthy food options only compounds these problems. Residents

				<i>should be trained in healthy living without exceeding their budget as obesity continues to plague the less wealthier residents of our community and also those that do not have the means or access to healthy food options. Programs stressing proper nutrition should be provided for families.</i>		
90	DOHMH	<i>Programs to address other public health issues</i>	<i>Other programs to address public health issues</i>	<i>Out-patient health clinics that cater to womens health are scarce in the community. Lack of sufficient gynecological, prenatal and post-natal care, cancer screening, and attention to other womens health issues forces women to wait longer than necessary for care. In many cases, this prolongs treatment and contributes to unwarranted suffering and unnecessarily early death. Ample health provisions and treatment centers for women in each neighborhood is crucial. As the number of dementia and Alzheimers disease cases grow in the community, additional funds to maintain services are required. Asthma rates have increased due to harsh conditions within the community (i.e. massive construction projects, demolition, and renovation efforts). Longer clinic hours need to be initiated.</i>		

4.1. Health Care and Human Services Needs and Requests

4.1.2. Community District Needs and Requests Related to Facilities and Programming for Older New Yorkers

The Community Board provided the following high level comments and background on the District's needs:

As a growing and occasionally neglected population, the elderly require special services and care that should come automatically to a well-deserving class of citizens. We need to recognize and reward the efforts and hard work of our senior population by providing them the fundamental means of existing above the median poverty line. As proponents of elderly care and in recognition of the special needs of the elderly in District 8, we appeal to a course of action that will make this goal possible. More services focused on improving the quality of life, residential opportunities, home-care and health-care need to be provided by City-operated and neighborhood based agencies. Services should focus on the forgotten population that earns too much to be eligible for Medicaid, and consequently do not qualify for Medicaid paid services as well as those that earn too much to qualify for low income senior housing opportunities. The home-care emphasis will help reduce costly institutional care and the burdens placed upon kin and will also provide additional freedom to relatively self-sufficient individuals. Services should include innovative senior centers, easily accessible and reliable transportation, truly affordable housing, prescription drug coverage and assistance, and other social and recreational activities.

12	DFTA	Services for homebound older adults	Enhance home care services	Services should focus on the forgotten population that earns too much to be eligible for Medicaid, and consequently do not qualify for Medicaid paid services as well as those that earn too much to qualify for low income senior housing opportunities. The home-care emphasis will help reduce costly institutional care and the burdens placed upon kin and will also provide additional freedom to relatively self-sufficient individuals.		
28	DFTA	Elder abuse programs	Enhance elder abuse programs	Too often, our elders are too ashamed or afraid to speak up for themselves. Additional services must be provided to ensure that they do not fall prey to scam artists and abusive individuals that will take advantage of their frailty.

33	DFTA	Senior center programs	Enhance educational and recreational programs	As informational resources proceed further into the digital era, and fewer services are provided without the use of online tools, it is imperative that our older population acquire the technical skills needed to navigate the world wide web to gain access to services. Too often, seniors do not possess the technical savvy to research their problem online or access the help available from online resources. Computer literacy programs and purchase assistance programs will help remedy this.		
77	DFTA	Services for homebound older adults	Increase home delivered meals capacity	The Home Delivered Meals program has proven to be a success. To make sure the program continues, funds for car insurance and additional vehicles to deliver the meals are needed.		
81	DFTA	Services for homebound older adults	Increase transportation services capacity	The elderly have a difficult enough time traveling. Unreliable public transportation options are at times their only choice. An increase in senior transportation, whether via para transit or some other form of transport, should be provided--especially for those that live alone and have minimal contact with the outside world.		

4.1. Health Care and Human Services Needs and Requests

4.1.3. Community District Needs and Requests Related to Facilities and Services for the Homeless

The Community Board provided the following high level comments and background on the District's needs:

Many of the shelters in District 8 lack the adequate tools necessary to provide their residents with the necessary resources to assist them with getting back on their feet and re-entering stable housing environments. This is a disservice to the men, women, and children that reside in these shelters and a greater affront to the community that houses the shelter.

The Community Board submitted the following budget requests:

02	DHS	Services for the homeless	Provide rental assistance/vouchers for permanent housing	The gap between affordability and unaffordable continues to rise. Programs need to be instituted for a wider range of people to help stem this tide. It is not only families facing a crisis of unaffordability; it is also single individuals with no children that hover in the ranges that are not covered by the "so-called" affordable units coming online. The income ranges discount a large population.		
29	DHS	Services for the homeless	Provide programs for homeless veterans	Our veterans deserve to be treated with a dignity and respect that they simply are not receiving at this time. Their valor and honor in serving our country should be rewarded, and they should not be looked down upon as scourge. After serving our country, no veteran should be in a position facing homelessness. Services and programs are needed to prevent veteran homelessness and joblessness.		
37	DHS	Homelessness prevention programs	Expand homelessness prevention programs	As rent rates in District 8 continue to increase, more and more families and individuals are on the verge of homelessness. Programs should be instituted to help them avoid entering the shelter system and becoming statistics. Rental assistance programs are in dire need to help cover the gap between affordability and unaffordable.		

4.1. Health Care and Human Services Needs and Requests

4.1.4. Community District Needs and Requests Related to Services and Programming for Low-Income and Vulnerable New Yorkers

The Community Board provided the following high level comments and background on the District's needs:

Permanent affordable housing for varying income levels remains one of our highest priorities. Both low and middle income single individuals and families, seniors, and disabled alike, require additional resources for housing. This need is more prevalent in District 8 now more than ever due to gentrification. If additional units of affordable housing are unable to be constructed, existing property owners need to be given incentives to maintain affordable rent rates for their existing units. District 8 is one of the City's leaders in rent increases and lack of affordability. Fewer options and owner greed is helping to push long term residents from their apartments. We must ensure that our residents are not victims of landlord harassment because they reside in rent controlled or stabilized apartments that keeps the rate collected at below market rate for that unit.

18	HRA	Services to support low-income New Yorkers	Provide, expand, or enhance educational programs for adults	<i>The adult population should not be neglected when it comes to education. Adequate adult literacy and GED programs should be provided for those seeking to improve their social condition. While a high number of people in the community lack high school diplomas and basic reading skills, District 8, unfortunately, has only one organization that provides adult literacy, GED preparation and GED obtainment, and adult continuing education programs. In addition we request training for residents with limited skills, especially those residing New York City Housing Authority developments, in the areas of licensed trades such as construction, electrical, and plumbing. It has been brought to our attention by Congressman Hakeem Jeffries that these services are required by law.</i>		
34	HRA	Homelessness prevention programs	Provide, expand, or enhance anti-eviction legal services	<i>More and more landlords are resorting to illegal tactics to evict tenants from their homes or make them want to leave on their own so that they can raise rents. Tenant education services and legal services to inform tenants of their rights are in high demand.</i>		
35	HRA	Domestic violence services	Other domestic violence services requests	<i>We support expanded funding for existing Domestic Violence Victim and Intervention Programs. It is extremely important that we protect our families welfare and well-being from destructive forces within the</i>

				community, regardless of whether it comes from the home or local environment. Preventive, protective, and counseling services for families must be provided in order to maintain the health and security of our youth, elderly, and overall family structure. Funding should be provided for preventative services to educate individuals of all ages on the telltale signs of all forms of abuse physical, emotional, sexual, and psychological and how to exit a situation that could be potentially life threatening, not only for themselves, but for any children in the home as well.		
68	HRA	Services for vulnerable New Yorkers	Provide, expand, or enhance adult protective services	We must keep in mind that our elderly population is at risk for abuse from family members and home health aides seeking to take advantage of their frail emotional and physical states. Our elderly population is the most vulnerable and often forgotten. They require considerable attention to maintain their safety and well-being, thus preventing them from being subjected to unnecessary hardship, pain, and mental aggravation in the form of fear.		
73	HRA	Kinship and Caretaker care programs	Provide funding for Kinship and Caretaker care programs	Additional services are needed for the homebound elderly to limit the burdens placed on kindhearted friends, significant others, spouses, and other relatives who assume complete responsibility for the care of their loved ones. Support services must be provided to these individuals who do an invaluable service to the community. These additional services will reduce the stress of having to care for semi-incapacitated individuals and can also reduce the risk of abuse by overworked and anxious relatives and friends encumbered with the financial and mental cost of care. We urge the Department to provide funding for the Kinship and Caretaker care programs.		
74	HRA	Services to support low-income New Yorkers	Provide, expand, or enhance job training	Job training opportunities need to be expanded beyond those living in NYCHA housing. These programs are needed to help the impoverished gain self-sufficiency and move away from a life on welfare and public services.		

4.2. Youth, Education and Child Welfare Needs and Requests

Main Issue

Adolescent drug use, violence, and crime

The Community Board provided the following explanation for the above issue:

Early intervention is the key to saving the future of our youth. It is well documented that inner-city children have a higher risk for crime, dropping out of school and other educational deficits, gang involvement, drug use, and incarceration. We urge funding for activities that target at-risk youth.

Community District Needs and Requests

4.2.1. Community District Needs and Requests Related to Educational Facilities and Programs

The Community Board provided the following high level comments and background on the District's needs:

We urge the Dept. of Education to provide funds to upgrade the interior and exterior of our schools so that students will not be preoccupied or disheartened by dilapidated conditions, thus reducing their focus on academics. We encourage smaller class sizes for all grades as they are necessary to give each student an equal and ample amount of individual attention and one-on-one interaction with his/her teacher. Our children require a well-rounded education that includes not only the fundamentals of math, language arts, and reading comprehension, but also science, social studies, art, dance, and music. Each area of instruction should be assimilated in the curriculum of New York City's schools as this would greatly enhance students' active desire to participate in their learning and instruction. We support academic enrichment through creative expression, including but not limited to literature, crafts, dance, music or fine arts. Incorporating all of these disciplines helps to stimulate and enhance brain and logical thinking development, which fosters a more profound learning process in all areas. Furthermore, a broadened curriculum for foreign languages should be implemented in public schools to enhance an appreciation of the various cultural mores and customs that students will encounter throughout life, including the workforce.

The greatest municipal need is for a zoned middle school in District 13 to serve the western part of Community District 8. According to Census data, in 2012, there were 613 children of middle school age living in the census tracts of Prospect Heights, and the population of the neighborhood will continue to grow as the Atlantic Yards project aka Pacific Park are completed and other infill development in the eastern part of Prospect Heights becomes occupied. Location is the B15 building in the Atlantic Yards project.	Pacific Park B15 building

This will transfer to their home lives where they will be able to teach other family members to make better eating choices.</i>		

4.2. Youth, Education and Child Welfare Needs and Requests

4.2.2. Community District Needs and Requests Related to Services for Children and Child Welfare

The Community Board provided the following high level comments and background on the District's needs:

As the number of children in the foster care system rises, allowances must be made for resources for kinship care and foster parent training and recruitment services. The family reunification process must be immediately instituted to counter-balance the effects of intervention by Protection Services. As the number of children presently in the foster care system greatly exceeds the number of homes available, increased efforts must be made to provide the proper mental health care to prevent children from further losing a sense of self-image and self-worth. Efforts must be made to assure children that their lives have meaning despite a lack of parental and familial influences. In addition, programs for youth who are aging out of the foster care system are needed. These programs assist in the critical adjustment and transition period for youth who are forced to live and survive on their own with minimal to no supervision. In order to assure that these individuals are able to live successfully without resorting to crime, programs must be instituted to assist them with job training and placement, money management, higher learning, and the like.

30	ACS	Child care	Provide more child care centers	There is a growing need for group and family Daycare services in District 8, spurred by the growing population of working parents moving into the community as well as the number of working parents already in the community. Additional affordable daycare slots for all work shifts, not just the traditional shifts of 8:00 AM to 6:00 PM, need to be created to accommodate this growing trend of working parents and their need for services. In addition, child care slots for home-based and center-based programs should be restored.

21	ACS	<i>Juvenile justice programs and preventive services</i>	<i>Provide, expand, or enhance preventive services</i>	<i>Early intervention is the key to saving the future of our youth. It is well documented that inner-city children have a higher risk for crime, dropping out of school and other educational deficits, gang involvement, drug use, and incarceration. We urge funding for activities that target at-risk youth. Funding for youth development and delinquency and prevention programs is necessary to serve our youth and quell the growing trend toward life-ruining activities.</i>		
45	ACS	<i>Child care</i>	<i>Other child care requests</i>	<i>Expand funding for Safe Sleep Program to increase awareness among parents and other caregivers about the potentially fatal risks of sharing a bed with an infant, and how to prevent injuries and deaths associated with other unsafe sleep practices, such as excessive bedding, bumpers and toys in cribs.</i>		
54	ACS	<i>Juvenile justice programs and preventive services</i>	<i>Provide additional juvenile justice programs</i>	<i>For youth that unfortunately find themselves entangled in the criminal justice system, the Close to Home program was started in 2012 as an alternative to sending New York City youth offenders to upstate facilities which separate them from family and familiar surroundings. Rather, Close to Home keeps youth offenders in NYC-based facilities and provides various services to the youth and their caregivers. We ask for quarterly reviews of current operations and results as well as public hearings to ensure the program realizes its mission and objectives as it is better that the youth learn how to adapt and function effectively in their community.</i>

4.2.3. Community District Needs and Requests Related to Youth and Community Services and Programs

The Community Board provided the following high level comments and background on the District's needs:

Community building exercises should be practiced to validate the "It Takes A Village" approach to child rearing. Too often, young parents reject the advice of a dwindling population of older nurturers, thus leading to a burgeoning violent youth culture. Youth without strong role models in the home need to have access to role models from elsewhere, and neighbors are a great place to look. Adults need to assume their role as parents, guardians, and mentors to our youth. Basic socialization requires that informal authority figures be active social agents.

The Community Board submitted the following budget requests:

Budget Requests are listed for informational purposes only. OMB maintains the definitive list that may have more updated information on request for agencies, published in its Register.

20	DYCD	Youth workforce development	<i>Provide, expand, or enhance skills training and employment services for high school students at risk of dropping out</i>	<i>Most jobs nowadays require at least a high school diploma or GED. The high drop out rate of students at risk of dropping out of school in already impoverished communities only increases the risk of continuing the vicious cycle of poverty and joblessness.</i>		
22	DYCD	Youth workforce development	<i>Provide, expand, or enhance the out-of-school youth program for job training and employment services</i>	<i>These programs provide a structured environment where these young men and women resume their education, acquire high school equivalency diplomas, and gain the skills needed to obtain employment and go on to college.</i>

64	DYCD	<i>Literacy Programs</i>	<i>Provide, expand, or enhance adult literacy programs services</i>	<i>The result of poor performing schools, poverty, and the effects of dropping out of school is never more present than in the high adult illiteracy rate. Functionally illiterate adults cannot be expected to succeed in life. Efforts must be made to give them the necessary skills to elevate themselves.</i>		
69	DYCD	<i>Youth workforce development</i>	<i>Provide, expand, or enhance the Summer Youth Employment Program</i>	<i>The Summer Youth Employment Program (SYEP) has proven to be invaluable to our youth in terms of the job experience, training, and responsibility given to its participants. Jobs, along with participation in the arts, music, dance, theater, and sports help foster higher self-esteem, positive self-motivation, and elevated levels of self-confidence. It is our firm belief that our youth will excel as a result of their experience with the SYEP. Therefore, we recommend that baseline funding should be adjusted annually to allow for inflation and the number and type of jobs available through SYEP be increased.</i>

91	DYCD	<i>Youth workforce development</i>	<i>Provide, expand, or enhance the young adult internship program</i>	<i>Each year, there is no shortage of youth participating in the SYEP program; however, there is a shortage of quality jobs. More outreach needs to be done to obtain quality internship positions, especially in technical and business realms so that young adults can obtain invaluable experience.</i>		

4.3. Public Safety Needs and Requests

Main Issue

Police-community relations

The Community Board provided the following explanation for the above issue:

Recruits coming from the police academy and all current officers must be equipped with the necessary skills to interact with citizens with the proper respect. The NYPD's (CPR) Courtesy, Professional, and Respect initiative, appears to be forgotten during interactions with minorities. If officers maintain the Department's CPR edict of being courteous, professional, and respectful, it will reduce tensions between officers and minority residents that arise because of racial profiling and blatant disrespect.

Community District Needs and Requests

4.3.1. Community District Needs and Requests Related to Policing and Crime

The Community Board provided the following high level comments and background on the District's needs:

While our police numbers illustrate a drop in crime, residents will tell a different story, that crime is increasing. Additional police officers are needed for the 77th, 78th Precincts and PSA #2 to effectively police the community. Additionally, to quickly solve crimes, it is essential that the number of officers in the detectives' squads investigating crimes be increased and commensurate with the rate of crimes and unsolved felonies.

The Community Board submitted the following budget requests:

Budget Requests are listed for informational purposes only. OMB maintains the definitive list that may have more updated information on request for agencies, published in its Register.

17	NYPD	NYPD staff and training resources	Provide resources to train officers, e.g. in community policing	NYPD officers should be provided with sensitivity training to deal with the rapidly evolving community. The training should encompass measures of bridging the gaps between old residents and new residents to prevent conflicts.		
40	NYPD	NYPD programs	Increase resources for youth crime prevention programs			
42	NYPD	NYPD programs	Increase resources for domestic violence prevention programs	Funding should be provided for preventative services to educate women and men of all ages on the telltale signs of all forms of abuse physical, emotional, sexual, and psychological and how to exit a situation that could be potentially life threatening, not only for her- or him-self, but for any children in the home as well. This will provide pre-emptive services and prevent further destruction of familial ties and bonds.		
56	NYPD	NYPD staff and training resources	Assign additional uniformed officers	A greater number of officers policing the community will help reduce crime and the potential for criminal activity.		
60	NYPD	NYPD staff and training resources	Assign additional housing police officers	The housing developments of Community Board 8 may not be as many in number or as large as other developments across the borough or citywide. However, additional patrol is needed, especially along Sterling Houses on the eastern end of the district. This small scale development has higher rates of crime due to lack of patrol because they seem to be ordinary apartment buildings.	Sterling Place between Ralph and Utica Avenues

We believe preventative measures should be implemented so that crime does not occur.	Atlantic Avenue to Eastern Parkway from Albany to Ralph Avenues	
80	NYPD	NYPD programs	Increase resources for other crime prevention programs	The Crime Prevention unit does its best to help educate the community on ways to reduce their propensity for falling victim to crimes of opportunity. However, additional resources are needed to help spread the reach of their educational tools.		
87	NYPD	NYPD programs	Increase resources for vandalism prevention programs, such as anti-graffiti initiatives	Graffiti is blight on the community. Not only do we need to clean existing graffiti, we need to educate the community on why tagging and graffiti is so bad for the community.

4.4. Core Infrastructure and City Services Needs and Requests

Main Issue

Environmental concerns affecting citizens

The Community Board provided the following explanation for the above issue:

Environmental concerns affecting citizens include sewer capacity, flooding issues, noise pollution, air quality, street cleanliness, and vermin.

Community District Needs and Requests

4.4.1. Community District Needs and Requests Related to Water, Sewers and Environmental Protection

The Community Board provided the following high level comments and background on the District's needs:

Complaints of flooding in the basements of homes in the District are increasing. The Right of Way Bioswale installation projects occurring throughout the city are designed to assist with runoff and flooding for sewers not equipped to handle the quantity of water running through the system. We hope this helps.

4.4. Core Infrastructure and City Services Needs and Requests

4.4.2. Community District Needs and Requests Related to Sanitation Services

The Community Board provided the following high level comments and background on the District's needs:

Sanitation issues continue to plague District 8. Whether it is overflowing corner baskets, high litter rates, illegal dumping, untimely trash pick up--it all adds up to a district with a declining scorecard rating. Additionally, bringing back section supervisors will help inform the garage what services are needed and where they are needed in a more timely fashion.

The Community Board submitted the following budget requests:

Budget Requests are listed for informational purposes only. OMB maintains the definitive list that may have more updated information on request for agencies, published in its Register.

10	DSNY	Street and lot cleaning	Provide more frequent litter basket collection	Corner baskets are prone to become victims of improper use as people dump household trash in them regularly. This causes the baskets to overflow and create unsightly messes in the community. More trash collection for corner baskets would help reduce this problem. 6 day a week service is requested. Currently, baskets are collected 4 times per week.		
14	DSNY	Garbage collection and recycling	Provide or expand community composting programs	Composting is a viable way to bring in additional revenue to the City and also to cut garbage disposal costs.		
25	DSNY	Garbage collection and recycling	Expand opportunities for electronic waste collection and disposal	The Department should have a weekly or even monthly regular pick up day for electronics just as it has for glass, aluminum, plastic, and paper. This would increase the likelihood of people actually recycling their electronic waste rather than placing it in a black garbage bag for disposal.		
30	DSNY	Garbage collection and recycling	Provide or expand NYC organics collection program			
31	DSNY	Sanitation Enforcement	Increase enforcement of canine waste laws	Canine waste has the potential to create health hazards for humans and other dogs. 4.5. Land Use, Housing and Economic Development Needs and Requests

Main Issue

Affordable housing programs

The Community Board provided the following explanation for the above issue:

Permanent affordable housing for varying income levels remains one of our highest priorities. Low and middle income single individuals and families, seniors, and disabled alike, require additional resources for housing. This need is more prevalent in District 8 now more than ever due to gentrification. If additional units of affordable housing are unable to be constructed, existing property owners need to be given incentives to maintain affordable rent rates for their existing units. District 8 is one of the City's leaders in rent increases and lack of affordability. Fewer options and owner greed is helping to push long term residents from their apartments. We must ensure that residents are not victims of landlord harassment because they reside in rent controlled or stabilized units.

Also, an environmental impact study for this area must be conducted and funding is needed to retain a consultant. 4.5. Land Use, Housing and Economic Development Needs and Requests

4.5.2. Community District Needs and Requests Related to Housing Needs and Programming

The Community Board provided the following high level comments and background on the District's needs:

We urge the City to consider using derelict, fallow housing for affordable housing opportunities rather than attacking community gardens and taking away green space for small scale development projects. Property owners should be held accountable for their property and should know that if they refuse to take care of it, there is the possibility that they can lose it to address a grave need at truly affordable rates, not inflated rates that are grossly unaffordable. We believe that a proper accounting of vacant NYCHA units should be done, especially considering the dire need for affordable units. The available units should be made available as soon as possible.

4.5.3. Community District Needs and Requests Related to Economic Development

The Community Board provided the following high level comments and background on the District's needs:

The revitalization of our commercial strips is one of our top priorities. We request that Small Business Services and the Brooklyn Chamber of Commerce continue to work with District 8 for the revitalization of Utica, Kingston, and Nostrand Avenues, each between Atlantic Avenue and Eastern Parkway. 4.6. Transportation Needs and Requests

Main Issue

Roadway maintenance

The Community Board provided the following explanation for the above issue:

Over the last few years, District 8 has had several traffic calming studies performed that have proven to be an effective tool in slowing vehicular traffic, thus making our district safer for its residents. However, these calming measures become rendered useless with poor roadway maintenance. Potholes and other street defects impede a driver's ability to stay within his or her lane, thus endangering cyclists and pedestrians.

Community District Needs and Requests

4.6.1. Community District Needs and Requests Related to Traffic and Transportation Infrastructure

The Community Board provided the following high level comments and background on the District's needs:

Community Board No. 8 is fortunate to have had a large portion of the District resurfaced in the last few fiscal years. However, many of our streets still require resurfacing or reconstruction due to hazardous defects. We request that funds be allocated in District 8 for street reconstruction and resurfacing. Potholes should be handled promptly and properly, thus minimizing the damage to vehicles and the out of pocket costs for vehicle owners. Street lights are a major deterrent to crime in the District as they illuminate our streets and provide residents with visibility in the dark to avoid potential hazards as well as identify illegal activity. We support the use of LED bulbs, which create a brighter and better illuminated street while cutting back on electricity usage. Funding is necessary to maintain street lighting crews and speed up the repair process when a malfunctioning or burned out street light is reported to DOT. We urge DOT to expand the Sidewalk Repair Program, thus creating a quicker response to investigate defective sidewalk complaints. Many of our streets have broken sidewalks due to large street trees uprooting the sidewalk from its foundation. Homeowners should not be held liable for defective sidewalks and damage caused by City street trees.

The Community Board provided the following high level comments and background on the District's needs:

Many seniors and people with disabilities rely on bus service to travel. It becomes disheartening knowing that some people prefer to remain home rather than attempt to rely upon unreliable bus service in District 8. We request better service along our east-west routes on the B 45 and B 65, especially on weekends.

4.7.1. Community District Needs and Requests Related to Parks and Recreational Facilities and Programming

The Community Board provided the following high level comments and background on the District's needs:

The need for safe and well-maintained parks and playgrounds are essential for the children in District 8. A regular maintenance program with adequate manpower is crucial. Currently, maintenance staff needs to be increased for all of our Parks and Playgrounds, malls along Eastern Parkway, and the St. John's Recreation Center. Additional Playground Associates, Park Enforcement Officers, and other personnel are required to keep children at play free from harassment and dangerous elements that lurk in unguarded areas. It has been proven that with personnel in our parks, they are cleaner and safer for those that utilize them.

4.7.2. Community District Needs and Requests Related to Cultural and other Community Facilities and Programming

The Community Board provided the following high level comments and background on the District's needs:

We urge the City to continue its financial support for the renovation of our cultural institutions. The Brooklyn Children's Museum (BCM) is one of New York City's unique educational and cultural treasures. Since its inception in 1899, it has been recognized for educational excellence and innovation and has had strong local and national impact while attendance continues to grow. Funding is required to complete necessary repairs and upgrades, and is also needed to maintain operating hours for the museum and staff levels at a livable wage. Weeksville Heritage Center (WHC) is another cultural jewel in District 8. The newly completed educational center and office space should further enhance the eastern end of the District. WHC is a multi-dimensional museum dedicated to preserving the history of the 19th century African American community of Weeksville, Brooklyn. Using a contemporary lens, the center activates this unique history through the presentation of innovative, vanguard and experimental programs. Unfortunately, there is not enough funding dedicated to WHC to keep it open for enough hours to provide potential visitors with its services and cultural enrichment.

4.7.3. Community District Needs and Requests Related to Library Facilities and Programming

The Community Board provided the following high level comments and background on the District's needs:

In recent years, the three public library systems serving NYC have been threatened annually with drastic cuts. Libraries provide job seekers assistance, adult literacy, English as a Second Language, computer training, tax preparation, US Passport processing, fine arts exhibits, access to the internet, and serve as a repository of Brooklyn historic material. Taken as a whole, the Brooklyn Public Library system requires its full funding due its multi-service delivery to youth and adults alike. Specifically for District 8, additional funding for the Brower Park branch is necessary as many students utilize the library's resources for school projects, term papers, and supplementary education means. Additional hours of operation are necessary to allow students and other residents to utilize the library's resources.

4.7.4. Community District Needs and Requests Related to Community Boards

The Community Board provided the following high level comments and background on the District's needs:

Community Boards are the first advocates for community residents facing issues with other city agencies. It is our charter mandated duty to interface with community residents and city municipalities to ensure service delivery in a timely manner. 311 is not an adequate substitution for the interaction of community boards and community residents. Residents increasingly complain about the difficulty of obtaining useful and accurate information from the 311 system concerning resolution of complaints submitted via the central hotline and other general questions. The net result of the 311 hotline has been stagnation in service delivery and complaint resolution. Community Boards in general lack adequate operational funding. The meager budget provided for each of the fifty-nine boards citywide has not kept up with inflation and any increased operating costs. Community Boards possess the only budget that has not seen an increase in the past two decades despite increases in operation costs. We operate on a meager budget yet perform a valuable service to the community and city. With recent directives and proposals by the city council that demand that we conduct voter registration drives and webcast our monthly general meetings, operational costs are going to increase and additional staff training will be needed to ensure that we are capable of performing our new duties. We urge the Mayor and the City Council to consider a much needed increase for operating costs and staff maintenance for all Community Boards. We hope the City Council and Borough President's office will continue to battle with us to keep the voice of local government alive in every community.
