## INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and Community Board Budget Requests (Budget Requests) are Charter mandates that form an integral part of the City's budget process. Together, they are intended to support communities in their ongoing consultations with city agencies, elected officials and other key stakeholders and influence more informed decision making on a broad range of local planning and budget priorities. This report also provides a valuable public resource for neighborhood planning and research purposes, and may be used by a variety of audiences seeking information about New York City's diverse communities.

## HOW TO USE THIS REPORT

This report represents Queens Community Board 14's *Statement of Community District Needs and Community Board Budget Requests for Fiscal Year (FY) 2018*. This report contains the formatted but otherwise unedited content provided by the Community Board, collected through an online form available to community boards from September to November 2016.

This report is broadly structured as follows:

### **a) Overarching Community District Needs**

Sections 1 – 4 provide an overview of the community district and the top three pressing issues affecting this district overall as identified by the community board. Any narrative provided by the board supporting their selection of their top three pressing issues is included.

### **b) Policy Area- Specific District Needs**

Section 5 is organized by seven distinct policy areas aligned with the service and program areas of city agencies. For each policy area, community boards selected the most important issue for their districts and could provide a supporting narrative. The policy area section also includes any agency-specific needs and a list of relevant budget requests submitted by the Community Board. If the community board submitted additional information outside of a specific policy area, it may be found in Section 6.

### **c) Community Board Budget Requests**

The final section includes the two types of budget requests submitted to the City for the FY18 budget cycle; one list for capital and another for expense budget requests. For each budget request, community boards were able to provide a priority number, explanation, location, and supporters. OMB remains the definitive source on budget requests submitted to city agencies.

### 3. Overview of Community District

Community Board 14 encompasses the Rockaway Peninsula and Broad Channel. It has at least 13 distinct communities, each with its own name, neighborhoods, interests and problems bound together by a common geography and history, which is both written and hidden. From a westerly to easterly direction, we point to Breezy Point, Rockaway Point, Neponsit, Belle Harbor, Rockaway Park, Rockaway Beach, Arverne/Sommerville, Edgemere, Arverne by the Sea, Bayswater, Wavecrest and Far Rockaway and Broad Channel Island. The Rockaways is some eleven miles in length and is three quarters of a mile wide. With its multi-ethnic, multi-religious groupings, the concerns of the poor, the aged, the young and needy is often termed a microcosm of New York City. Patterns of housing are equally diverse with evidence of affluence in the western and most eastern sections of the district. And large concentrations of public housing and publicly assisted housing in between. While our District is still recovering from hurricane SANDY it is our belief that with government assistance our many devastated communities will recover and thrive. The board looks forward to an amended "Downtown Far Rockaway" Plan. The board looks forward to improving the plan by reducing density, the height of the proposed buildings and including more parking.

#### 4. Top Three Pressing Issues Overall

The three most pressing issues facing Queens Community Board 14 are:

- *Resiliency*
- *Street flooding*
- *Unemployment*

Flooding -It's has become clear that after Hurricane SANDY, that protection from Flooding is a major concern. The communities in our district that face Jamaica Bay are in constant jeopardy from high tides, storm surge and heavy rains. Bulk heads, street raising and storm sewers must be installed along Rockaways northern boarder and through out Broad Channel. Groins/jetties and Beach sand replenishment must be funded. Public Health- With the closing of Peninsula Hospital, St Johns hospital has become over crowded and unable to handle the load . A typical wait in the emergency room exceeds 5 hours and a wait for a bed can be over a day this must be delt with . We also have been deeply disappointed in the NYC Dept of health's refusal to implement a program of the spraying/fogging of adulticide to deal with summer mosquito problem. Street Conditions- CB14 has experienced an large increase in summer tourism. This has caused traffic problems through out the district. Our roads remain in poor condition after hurricane SANDY. The expansion of Rockaway Beach blvd from Beach 62-Beach 32/Seagirt Blvd MUST be designed and funded this road way remain dangerous and over used. We also look forward to more Police officers during the summer beach season.

## 5. Summary of Community District Needs and Budget Requests

#### Main Issue Related to Health Care and Human Services

##### *Services for low-income and vulnerable New Yorkers*

We request that the shelter be closed and that the city share the burden of housing our cities unfortunate poor and needy in other Community boards. The City is placing Homeless in the new local Hotel in addition to the shelter that the city opened. We also have the highest section 8 voucher placements in Queens the City must stop placing those in need in our communities it is destabilizing our neighborhoods
