INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and the Community Board Budget Requests (Budget Requests) are Charter requirements and an integral part of the City's budget process. When developed through informed planning and careful consideration, CD Needs Statements and Budget Requests can play an important role in consultations of community boards with agencies, elected officials and other key stakeholders on a broad range of local planning and budget priorities. These tools also provide a valuable public resource for neighborhood planning and research purposes, and are used by a wide audience seeking information about New York City's diverse communities.

This year, for the first time, community boards electronically submitted a CD Needs Statement combined with their Budget Requests. The goal of these improvements is to simplify preparation of both documents for the community boards and to make the information community boards provide more easily accessible for City agencies and other stakeholders. Simplified and more efficient processes will allow all parties involved in the budget process to consider budget decisions more thoroughly, with better results for all New Yorkers.

This report represents Queens Community Board 12's Statement of Community District Needs and Community Board Budget Requests for Fiscal Year (FY) 2017. This report contains the formatted but otherwise unedited content provided by the Community Board which is displayed in italics.

2. OVERVIEW OF COMMUNITY DISTRICT

Queens Community Board 12 provided the following overview of their district:

Community Board 12, Queens, encompasses the area bounded by the Van Wyck Expressway (West), Hillside Avenue (South), North Conduit Avenue (South), and Francis Lewis Boulevard/Springfield Boulevard (East), as well as, communities of Jamaica, South Jamaica, South Ozone Park, Hollis, St. Albans, Addisleigh Park, Rochdale Village, North Springfield Gardens. Officially, according to the 2010 census, we have a total population of 225,919 people. The number does not reflect nor acknowledge an undercount.

3. MAIN ISSUES

As part of this year's process, community boards were asked to select from a list the three most pressing issues facing their district. Queens Community Board 12 identified the following three issues:

- *Resiliency*
- *Street flooding*
- *Other <I>Please specify below</I> | Economic Development Groundwater flooding*

Queens Community Board 12 provided the following explanation for their choices:

Flooding is a serious issue in CB12, it is due to lack of proper drainage causes flooding in streets and into homes, businesses and schools. An additional cause of flooding is that the groundwater table is too high.

4. SUMMARY OF COMMUNITY DISTRICT NEEDS AND COMMUNITY BOARD BUDGET REQUESTS

Community Boards were asked to identify their district's needs related to the following seven policy areas:

- Health Care and Human Services;
- Youth, Education and Child Welfare;
- Public Safety;
- Core Infrastructure and City Services;
- Land Use, Housing and Economic Development;
- Transportation; and
- Parks, Cultural and other Community Facilities.

Based on the needs identified, community boards then had the opportunity to make budget requests to address these needs.

The Community Board provided the following high level comments and background on the District's needs:

•Health care facilities and programming. We have a number of health care facilities with programs in the district, but not enough to meet the needs of a growing community. We need a hospital in the district to address many of the community resident's needs; a primary health care facility. •Facilities and Programming older New Yorkers •There is a lack of facilities and programs for the older New Yorkers. •Facilities and services to the homeless. We have more than our fair share of facilities of services to the homeless. We have (10) ten facilities in Community Board 12, Queens District, for more than our fair share. •Services and programming for low income and vulnerable new Yorkers. We do not have enough services and programming for low-income and vulnerable new Yorkers. •Despite a decrease in the infection rate for HIV/AIDS it continues to exist in our community, and appropriate health care should be continued.

The Community Board submitted the following budget requests:

Education Partnering with Community Education Council Districts 27, 28 and 29 has been our priority for many years and we are proud to continue to stand with the staff, parents and students within these districts for education quality and equity. The years of Mayoral control by the previous administration caused our CDE Councils to take a considerable beating. It was extremely difficult to manage all of the issues wrought by the Bloomberg administration, yet we persevered in dealing with issues such as: the effectiveness of the ATR (Absent Teacher Reserve) pool, the “Blue Book” – a document that did not provide trusted, definitive school space utilization information, “Testing to the Test”, the premature roll out of Common Core Standards, school closures, and persisting co-locations of

4.4. Core Infrastructure and City Services Needs and Requests

4.4.2. Community District Needs and Requests Related to Sanitation Services

The Community Board provided the following high level comments and background on the District's needs:

We are facing a major problem with sanitation, dumping is an increasing problem. We must have more strict enforcement not less; there is a need to deal specifically with illegal dumping. We need additional manpower for street cleaning, dump-outs, and litter basket operations. Some of the dumping is in the residential area, where there are a high number of vacancies due to foreclosure. In order to have cleaner streets in the residential areas, you must have alternate side of street paring in which we do not have in majority of the areas; so the mechanical broom can clean.

The Community Board submitted the following budget requests:
