Community District 10**

INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and Community Board Budget Requests (Budget Requests) are Charter mandates that form an integral part of the City's budget process. Together, they are intended to support communities in their ongoing consultations with city agencies, elected officials and other key stakeholders and influence more informed decision making on a broad range of local planning and budget priorities. This report also provides a valuable public resource for neighborhood planning and research purposes, and may be used by a variety of audiences seeking information about New York City's diverse communities.

HOW TO USE THIS REPORT

This report represents Queens Community Board 10's *Statement of Community District Needs and Community Board Budget Requests for Fiscal Year (FY) 2018*. This report contains the formatted but otherwise unedited content provided by the Community Board, collected through an online form available to community boards from September to November 2016.

Community boards may provide substantive supplemental information together with their Statements and Budget Requests. This supporting material can be accessed by clicking on the links provided in the document or by copying and pasting them into a web browser, such as Chrome, Safari or Firefox.

If you have questions about this report or suggestions for changes please contact:

This report is broadly structured as follows:

a) Overarching Community District Needs

Sections 1 – 4 provide an overview of the community district and the top three pressing issues affecting this district overall as identified by the community board. Any narrative provided by the board supporting their selection of their top three pressing issues is included.

b) Policy Area- Specific District Needs

Section 5 is organized by seven distinct policy areas aligned with the service and program areas of city agencies. For each policy area, community boards selected the most important issue for their districts and could provide a supporting narrative. The policy area section also includes any agency-specific needs and a list of relevant budget requests submitted by the Community Board. If the community board submitted additional information outside of a specific policy area, it may be found in Section 6.

c) Community Board Budget Requests

The final section includes the two types of budget requests submitted to the City for the FY18 budget cycle; one list for capital and another for expense budget requests. For each budget request, community boards were able to provide a priority number, explanation, location, and supporters. OMB remains the definitive source on budget requests submitted to city agencies.

3. Overview of Community District

Community Board 10 is located in Southwest Queens. Within the Board's boundaries are all of the Howard Beach communities located within zip code 11414; all of those communities located within Ozone Park zip code 11417; all of the South Ozone Park zip code 11420 communities; and approximately half of the Richmond Hill South zip code 11419. A small part of zip code 11430 is also within our boundaries, but it is not populated, except for a homeless shelter, as most of that zip code's geography is on-airport. Community Board 10 encompasses approximately 4,000 acres and just over 6 square miles of the borough's land area. Our Board abuts JFK International Airport and Jamaica Bay. What occurs at both are important to our residents. New York City's only casino facility is located virtually in the center of our Board area. All the communities located within our Board are in close proximity to it. People in all of our communities share similar concerns regarding current activity and future development plans. At present planning is underway by Resorts World to add a 400 room hotel at the site along with 140,000 sq. ft. of exhibition space. Community Board 10, located in Southwest Queens, is racially diverse and generally economically stable. Our district has a large foreign-born population and a growing senior population. Approximately 1/3 of our district's land area was inundated by Superstorm Sandy's floodwaters in 2012. Sandy negatively impacted about 20,000 of our residents and caused damage to approximately 5,000 homes and many of our businesses. Needed resiliency projects and coastal protection projects must move forward at a far faster pace.

General Needs:

- Housing – continued building code enforcement; better strategies to provide adequate maintenance of vacant/abandoned homes; better strategies to identify current owners of vacant properties; effective requirement for ongoing maintenance of vacant homes
- Land Use – contextual rezoning; implementation of resiliency projects; prohibit pawn shops as allowable in C2 use groups; eliminate off-street parking requirement waivers for community facilities and commercial development; increase DOB inspection personnel; review/alter DOB self-certification process; insure use/occupancy code compliance
- Transportation – provide reliable bus service without reducing travel lanes for other vehicles; expand express bus service; implement "Super A" subway service; continue rehabilitation of all el stations; increase accessibility to all el stations not yet made accessible; construct southbound Aqueduct Station platform; maintain parking availability on commercial corridors; provide Q11 late night service; improve accessibility to Hamilton Beach; reduce speeding; enforce parking regulations; improve infrastructure project pedestrian/vehicle safety measures; periodically review implemented traffic calming measures and correct negative impacts; require Community Board review of parking regulation changes; post No Truck signage; continue implementation of Vision Zero policy;
- Parks – assign maintenance personnel at each park daily; provide year round recreation services in parks; expand summer programs for youth; provide appropriate recreation services and facilities for seniors; provide a recreation center; provide a swimming pool; provide a park facility north of Rockaway Blvd.; expand forestry service; increase forestry personnel
- Public Facilities - expand library service; increase funding to Boys & Girls Club of MetroNY; provide for local review of youth services funding; restore Youth Coordinator position; eliminate all fees for public purpose use of school buildings; construct new schools; expand school art and music programs; identify sites for PreK services; provide additional senior centers; close Skyway Men's Shelter and reopen former Skyway Family Shelter; require Community Board review of proposed ACS facilities, relocate Close to Home Limited Secure facility from South Ozone Park location.
- Public Safety – substantially increase number of permanently assigned police officers in 106th Pct.; support peace officer status for Resorts World security force; expand noise violation enforcement; reduce backlogs; increase response times; improve 311 complaint intake process and action taken reporting; increase critical infrastructure protection; expand OEM education initiatives; expand fire safety education; continue distribution of smoke and CO2 detectors
- Water, Sewer, Sanitation – inspect, clean, and repair all catch basins; clean all catch basins in Sandy zone annually

3. Overview of Community District

prior to hurricane season; resolve long-standing poor drainage conditions; expand installation of green infrastructure in poor drainage areas; develop and employ better strategies to insure cleanliness of vacant lots; expand basket collection on commercial strips; provide daily collection of school garbage during 4-12 PM time period

- Economic Development – expand business services; provide more direct grants to business owners in Sandy zone
- Resiliency, Sustainability – provide flood surge protection; protect power supply; prevent sewer backup; protect vulnerable population; improve Build it Back; construct bulkheads; provide financial incentives to encourage elevation and/or relocation of critical building utilities; upgrade sewage pumping station; support and implement all components of Howard Beach NY Rising recommended projects; implement ecosystem restoration project in Spring Creek Park
- Community Boards – continue to baseline budget; restore agency business parking permits to Board Chairpersons; improve 311 and other reporting systems

4. Top Three Pressing Issues Overall

The three most pressing issues facing Queens Community Board 10 are:

- *Crime*
- *Schools*
- *Street flooding*

Schools in CB10 are overcrowded. PreK seats are needed. Youth population in parts of the district is increasing. New schools are needed. Music, art, and physical education programs need expansion. New school currently under construction in CB district must be zoned in accordance with our recommendation to D27 CEC. We experienced increased major felony crime in calendar years 2011, 2012, and 2013. Major felony crime decreased in calendar year 2014 and increased slightly in 2015. The 2014 crime decrease and the work by our officers to limit the 2015 increase to a slight one came at the expense of addressing our quality of life complaints. Our precinct needs many more officers in order to be able to adequately address both crime and quality of life concerns. Our critical infrastructure must be protected. Our district was severely impacted by flooding from Superstorm Sandy. Since Sandy, our Lindenwood community has experienced damage from stormwater flooding during rain events due to issues related to the sewer system. Surge protection and other resiliency projects must be implemented at a far faster pace. Our stormwater drainage system must be fully inspected and upgraded, particularly in all parts of Howard Beach. Areas where there are long-standing ponding conditions throughout our district must be corrected.

Main Issue Related to Health Care and Human Services

Programs, services or facilities for seniors

Services to seniors in our district need to be increased. Census 2010 reported we have almost 22,000 residents over age 60. Approximately 7,000 more of our residents will reach age 60 over the next few years. There is only one city funded senior center in our district to serve a large and growing population of older residents. When services should have been expanding to meet the needs of our growing senior population, we have experienced services being diminished. There is a need to fully fund and re-open the Wakefield Senior Center to serve our growing senior population in South Ozone Park. There is also a need to develop a new properly operated center to replace the de-funded center that formerly served many of our Indo- Caribbean seniors as that population is also growing.

Community District Needs Related to Health Care Facilities and Programming

There is no hospital facility in the district to serve our population, many of whom are foreign-born, elderly, or both. In recent years, hospitals have been closed in Queens resulting in less beds within the borough to serve a growing population.

Community District Needs Related to Facilities and Programming for Older New Yorkers

There is only one city-funded senior center located in our district. The sole city-funded senior center in our district was displaced by Superstorm Sandy. It has now moved and is operational at the Catholic Charities operated Peter Striano senior housing facility. This site is located in that segment of the district that has the largest concentration of older residents. About 35% of our district's total of persons over age 60 reside in Neighborhood Tabulation Area QN57 where this senior housing/senior center facility is located. Over 28% of the people who live within QN57 are over age 60. QN57 is the area of our Board inundated by Superstorm Sandy. It is imperative that this center be well funded by DFTA and that its funding be fully immune from any cuts until the community is fully recovered from Sandy impacts. There is a need for additional funding so that appropriate support personnel may be available there daily to assist the thousands of neighborhood seniors now living in damaged homes trying to cope with numerous social and economic issues. Another 15% of our residents who are over age 60 live in QN56 in close proximity to the site. Almost half of our district's over 60 population reside in NTA QN56 and QN57 together. This Catholic Charities facility literally sits on the border between those two NTAs. There is a need for DFTA and other city agencies to work closely with Catholic Charities to bring even more quality services to this facility to better serve our growing senior population. The facility serves the community-at-large as well as its residents.

Community District Needs Related to Facilities and Services for the Homeless

There is a need to close the Skyway Men's Shelter and reopen Skyway as a family shelter. There is a need to provide additional security at homeless shelters. There is a need to cease using hotels in the vicinity of JFK Airport to house homeless persons.

Community District Needs Related to Services and Programming for Low-Income and Vulnerable New Yorkers

There is a need to provide a multi-service center facility to serve our low income and vulnerable residents. Such a facility would serve to be a one-stop location where information, services, and programs could be provided.

Capital Requests Related to Health Care and Human Services

Priority	Agency	Need	Request	Location
13/28	DFTA	Facilities for seniors	Create a new senior center or other facility for seniors

32/32	HRA	<i>Services to support low-income New Yorkers</i>	<i>Provide, expand, or enhance food assistance, such as Food Stamps / SNAP</i>	

Youth, Education and Child Welfare

Main Issue Related to Youth, Education and Child Welfare

School and educational facilities (Capacity)

School seats are needed to serve the children of School District 27. Proper educational facilities with a full range of services are imperative for all children. During School year 2014-15 there was no Early Learn Center within CB10. Our CB District needs less juvenile justice programs and more services for our school age children.

Community District Needs Related to Educational Facilities and Programs

There are 16 public schools with our district. Additional school seats are needed. Additional sites for new school construction must be located and construction must be expedited to ensure adequate educational facilities for our children. Over 20% of our population is under age 18. The influx of families with school age children continues, particularly in the northern and eastern parts of our area. Many of the school buildings are overcrowded and parents see a diminished range of what is being offered to the students at the elementary school level. More art and music programs are needed. Parents are concerned with the quality of education and the safety factor as students move to the Middle Schools and the High Schools. The physical plants of many of our school buildings still need attention. Appropriate sites for additional Pre-Kindergarten services are needed. Most of the schools in our area have had their play areas diminished in recent years by the placement of transportable classrooms and/or modular additions. Every child in our Community Board area must have a seat in his or her neighborhood school and each school must provide a full range of educational services. Queens has 18% of its children eligible for EarlyLearn NYC programs. Yet out of 362 center-based EarlyLearnNYC, only 38 were located in Queens during the 2014-15 school year. CB10 had zero despite the fact that 19% of our families with children under 5 located within zipcode 11420, where ACS sited 2 juvenile justice facilities without any community consultation, live in households with incomes below federal poverty guidelines. EarlyLearn Centers and additional schools would serve our real youth needs far better than these juvenile jails.

Community District Needs Related to Services for Children and Child Welfare

ACS has established juvenile justice facilities within our district. Far better oversight of the provider agencies is needed.

Community District Needs Related to Youth and Community Services and Programs

The two budget requests listed in this category may be in the wrong section, but we did not see another spot where they should be listed. We did reach out to City Planning contact person for this form for information order to properly place them, but have not yet received a reply.

Public Safety and Emergency Services

Main Issue Related to Public Safety and Emergency Services

General crime

There is an ongoing pattern of increased crime that we believe is attributable, at least in part, to an insufficient number of officers assigned to the 106 Pct. There is a large, and growing, ambient population (10,000,000+ annually) in our district. Quality of Life infraction enforcement is impacted due to increasing need for crime enforcement. Our residents express concern that they do not receive their fair share of police officers and there is a growing perception among our residents that they are not safe in their homes and neighborhoods.

Community District Needs Related to Policing and Crime

The percentage of crime that occurs within PBQS that occurs in the 106 Pct. is also increasing. The number of Quality of Life complaints made to 311 is also increasing. Our residents regularly express their belief that there are not enough police officers assigned to provide full patrol of all parts of our precinct at all times. New York City's only casino is located in our precinct. Over 10 million people visit it annually and that number is growing. Other locations in the city with high number of visitors are served with more officers than we are in the view of our residents. The chart attached shows the number of Quality of Life complaints through FY2015. In FY2016, there were 12,205 Quality of Life Complaints. The crime chart attached shows the number of major felonies reported through calendar year 2014. In calendar year 2015, there were 1,579 such crimes reported. Calendar year to date as of 8/11/16 there have been 839. The permanent assignment of additional police officers to the 106 Pct. continues to be our highest expense budget priority. Our police precinct has no parking facility. One is needed. Additional upgrades are needed to the stationhouse building.

Public Safety and Emergency Services

Community District Needs Related to Emergency Services

Our growing population and the high number of illegal residential units created in cellars and attics point to a need for more emergency services and more/expanded educational programs. Close to half of our residents are foreign-born and some are unaware of basic safety practices common in the U.S. There is an increasing demand for fire services and our fire houses need upgrading of buildings and equipment.

5. Summary of Community District Needs and Budget Requests

Core Infrastructure, City Services and Resiliency

Main Issue Related to Core Infrastructure, City Services and Resiliency

Water runoff and flooding

Our residents continue to report problems with catch basins. A third of our District was severely flooded during Sandy. All catch basins in the Sandy zone need to be fully inspected, repaired if necessary, and cleaned on a far more regular basis. Permanent repairs are needed at the treatment plant serving our Lindenwood area to prevent further flooding. All catch basins in CB10 require cleaning on a more regular basis. There are numerous as yet unaddressed ponding conditions throughout CB10. Resiliency projects to provide our residential and commercial areas protection from tidal storm surges must be advanced.

Community District Needs Related to Water, Sewers and Environmental Protection

There are still areas within Community Board 10 not served by sanitary sewers as well as areas not served by storm sewers. There are numerous ponding conditions throughout the district for which solutions must be found. Our residents complain regularly of clogged and non-functioning catch basins.

Community District Needs Related to Sanitation Services

There are numerous dump out sites with CB10. They need to be cleaned more frequently. There is a need for mechanical broom service without requiring implementation of alternate street parking in our residential areas. Our commercial strips need additional basket services, particularly on Liberty Avenue which has a high pedestrian volume and residential uses above the stores. There is a need for the Bergan Landing DSNY facility to serve only equipment and personnel serving CB10. There is also a need for daily 4x12 pickup at every school in which there is food service.

5. Summary of Community District Needs and Budget Requests

Land Use, Housing and Economic Development

Main Issue Related to Land Use, Housing and Economic Development

Zoning review and enforcement

Most of the complaints to DOB by residents in all parts of our district relate to illegal conversions and un-permitted construction. There are numerous indications of vacant bank-owned properties in disrepair within our district due to foreclosure crisis. The number of untended, vacant homes has now increased due to the impact of Superstorm Sandy on our area. There is a continuing need for the city to develop an enforceable policy requiring owners of such properties to promptly secure them and provide for ongoing maintenance. Identifying who are the actual owners of such properties continues to be problematic and it is often difficult for our staff to do so in a timely manner. It is also difficult to contact these owners after they have been identified.

Community District Needs Related to Land Use

Studies related to increasing resiliency for homes and businesses in our Sandy zone need to be completed and programs need to be developed to offset the costs of resiliency improvements for homeowners and business owners.

Community District Needs Related to Housing Needs and Programming

There is a need for additional personnel to support enforcement efforts.

Community District Needs Related to Economic Development

Economic development services are needed to assist businesses on our local commercial strips. This is especially needed on our Crossbay Blvd. retail strip in Howard Beach where virtually every business suffered economic loss due to Superstorm Sandy. Additional services are also needed on our Rockaway Blvd. and Liberty Avenue commercial

Transportation

Main Issue Related to Transportation

Roadway maintenance

Our residents regularly complain of needs for roadway maintenance. Increasing population overloads our roadways and increasing traffic volumes along with deteriorating infrastructure impact our residents on a daily basis.

Community District Needs Related to Traffic and Transportation Infrastructure

There is a need for expanded roadway maintenance, additional staffing at DOT to address ever-increasing deterioration of infrastructure, and reconstruction of streets and roadways in our district. There is a need to harden storm surge protection in our Sandy zone at all points where city roadways abut parkland at our shoreline and at all points where city street stub ends abut waterways. There is a need for expanded bus service without reducing roadway lanes available for other vehicles. There is a need to reconfigure 3 locations where merging traffic is problematic.

Community District Needs Related to Transit Services

There is a need to provide additional bus service without reducing available traffic lanes for other vehicles. Our residents are expressing this concern regarding plans to provide SBS service. Many of our residents are expressing opposition to plans presented to them for SBS service on the Crossbay Blvd./Woodhaven Blvd. corridor.

Main Issue Related to Parks, Cultural and other Community Facilities

Park care and maintenance

What parks there are in our district must be well maintained to serve our growing population. A large segment of our district has limited access to parkland which leads to our existing parkland serving large numbers of people.

Community District Needs Related to Parks and Recreational Facilities and Programming

The area north of Rockaway Blvd. within CB10 is our most densely populated area. The only parkland in that section of the district are at either end geographically which leaves a large segment of our population with limited access. Our Howard Beach area has a large older adult population but is served by only two joint operated school playgrounds which do not meet their recreational needs. A recreation center is desirable to better provide service to our residents. Superstorm Sandy damaged and destroyed much of our tree canopy. Forestry services must be expanded.

Community District Needs Related to Cultural and other Community Facilities and Programming

Cultural programming is desirable. However, there are limited sites available other than schools. Therefore, cultural programs within our schools should be expanded.

Community District Needs Related to Library Facilities and Programming

Library services are desired. CB10 supports the QBPL requests for new and renovated facilities and expanded service hours and programming. Due to lack of public transportation to the nearest branch library there is a need to construct a small library to meet the needs of our Hamilton Beach community. Within our Howard Beach area our Hamilton Beach community has the highest percentage of youth and walking to the Howard Beach branch is difficult.

Community District Needs Related to Community Boards

There is a need to permanently base-line the budgets of CBs. In local communities the services, outreach, and opportunities for public discussion we provide are needed. Our budgets need to be excluded whenever “across the board cuts” are initiated. This exclusion from cuts should be offset by the fact that our work is carried out not only with city budget dollars but with the contribution of pro-bono service our members provide. Our Chairpersons serve as agency heads. Although unsalaried, chairpersons perform numerous functions. They must attend numerous meetings within and outside of Board boundaries. Agency parking permits are needed. More detailed information is still required as to what action was taken by agencies regarding the complaints made to 311. All Community Boards should be provided with lists, at least on a weekly basis, of all complaints made to 311 within the district and the agency response to each. Many times complaints involve more than one agency to solve the issue. Having such lists readily provided without having to go to the Open Data Portal to filter and sort out complaints would be helpful.

7. Summary of Prioritized Budget Requests

Queens Community Board 10 Capital Requests

Queens Community Board 10 submitted 28 capital budget requests, organized by priority.

Priority / Continued Support (CS)	Agency	Request	Explanation	Location	Supporters
11/28	QL	Create a new, or renovate or upgrade an existing public library	Construct a new library in Hamilton Beach. The community has approximately 320 homes with an estimated 500 to 600 school age children. The nearest branch is located at 156th Avenue and 92nd Street which is inconvenient and a hardship for those using public transportation.		New Hamilton Beach Civic Association
12/28	DEP	Build new, expand or repair storm sewers	Correct drainage problem to alleviate street flooding. Correct drainage problem on 125th, 126th, 127th Streets between Rockaway Blvd. and North Conduit Avenue, South Ozone Park to alleviate street flooding.	125, 126 and 127 Streets Rockaway Blvd. North Conduit avenue	South Ozone Park Civic Association West; Area residents
13/28	DFTA	Create a new senior center or other facility for seniors	Request funds to be made available to build new senior centers. Senior population continues to grow and additional services are needed.		Civic Associations, district
14/28	DOT	Repair or construct new sidewalks, curbs or pedestrian ramps	Continued support for curb maintenance for entire CB10 area.		All area civic associations; All area residents
15/28	DEP	Build new, expand or repair storm sewers	Construct a Sanitary Sewer from the outlet of the existing sewer at 160th Avenue and 102nd Street, etc. A sanitary sewer is needed in the remaining area not served starting from the outlet of the existing sewer on 160th Avenue and 102nd Street, going East and West of 102nd Street between Russell Street and 160th Avenue.	102 Street Russell Street 160th Avenue	Ramblersville/Hawtree Civic Association
16/28	NYPD	Renovate or upgrade existing precinct houses	Build 106th Precinct Parking lot. Lack of parking space in the perimeter of the 106th Precinct arouses residents' ire and blocks trucks and other larger vehicles like fire engines from readily navigating the streets near the Precinct. The precinct block abuts Liberty Ave. which is a congested corridor. Lack of off street parking exacerbates congestion.	106th Precinct	Ozone Park Civic; 106th Precinct
17/28	DOT	Reconstruct streets	Request Street Reconstruction of 130th Street Between 107 & 109 Avenues Including Hawtree Creek Road from 109 Street to 111 Avenue and All Ancillary Street Work. To eliminate severe flooding conditions and modify the grade so that the impact upon the streets will be minimal.		Area residents
18/28	DPR	Other requests for park, building, or access improvements	Construct Parks Department recreation center within our district. There is no recreation center located in southwest Queens. Such a center would meet some of recreational needs of our youth and senior populations year-round. There is no pool in southwest Queens.		Civic Associations
19/28	DPR	Other requests for park, building, or access improvements	Support Forest Park Greenhouse and contract staffing. Plants grown in this facility support Parks and public spaces in Community Board 10.	Forest Park Greenhouse	Area Residents; Civic Associations

7. Summary of Prioritized Budget Requests

Queens Community Board 10 Expense Requests

Queens Community Board 10 submitted 32 expense budget requests, organized by priority.

Priority	Agency	Request	Explanation	Location	Supporters
1/32	NYPD	Assign additional uniformed officers	Assign additional personnel to the 106th Police Precinct for all patrol services.		Area residents
2/32	DPR	Other park maintenance and safety requests	Additional support for Parks personnel to better address forestry services.		Area residents
3/32	DEP	Other sewer maintenance requests	Provide ongoing inspection and maintenance of sewers and catch basins. To assure that flooding of the magnitude that engulfed the community board area recently does not occur again, it is essential that ongoing inspection and maintenance of sewers and catch basins occur on a far more regular basis.		Area residents.
4/32	DPR	Other street trees and forestry services requests	Support for DPR contracts related to maintenance of street trees		area residents
5/32	DSNY	Increase cleaning of dump-out/drop-off locations	Additional support for bi-weekly cleaning of Dump Out Sites. Once a week cleaning is inadequate.		Area residents
6/32	DSNY	Provide more frequent garbage or recycling pick-up	Additional basket trucks to be assigned to the commercial districts within Community Board 10 for seven days a week on a permanent basis. A basket truck is needed for daily pick-ups on commercial strips where there is a very large pedestrian population and baskets overflow daily.		Area residents; Commercial businesses
7/32	DPR	Other park maintenance and safety requests	Assign Park Staff to Reconstructed Parks & Jointly Operated Parks/Playgrounds. In order to protect the large capital dollar expenditure, it is essential to assign park staff to each reconstructed facility.		Area residents
8/32	DPR	Other park maintenance and safety requests	Additional personnel to cut overgrown weeds along primary and secondary roadways. Necessary so that the visibility of the motorist is not obscured.		Area residents
9/32	HRA	Restore Office of Family Ser.	Our goal is to have a permanent 5 day a week site and staffing in Community District #10Q to serve as a single point of entry within the community.		Area residents
10/32	DPR	Other park maintenance and safety requests	Support for maintenance personnel for Park maintained Greenstreets and malls.		Area residents
11/32	DOT	Other traffic improvements requests	Support for pothole repair crew/arterial maintenance. Innumerable potholes and large street depressions are causing hazardous roadway conditions for the motorist and pedestrian and must be addressed.		Area residents
12/32	FDNY	Provide more firefighters or EMS workers	Request more funding for EMS & Firefighting classes.		Area residents
13/32	FDNY	Expand funding for fire prevention and life safety initiatives	Support for smoke CO detectors/batteries. To ensure protection for senior citizens and residents.		
14/32	NYPD	Other NYPD staff resources requests	Request additional resources for civilians and larger class. To insure adequate levels of service.		Area residents

7. Summary of Prioritized Budget Requests

Queens Community Board 10 Expense Requests

Queens Community Board 10 submitted 32 expense budget requests, organized by priority.

Priority	Agency	Request	Explanation	Location	Supporters
15/32	DPR	Other park maintenance and safety requests	Provide an additional mobile crew. An additional mobile crew of 3 PSWs and 3 CSAs, during the summer, would permit the level and quality of maintenance necessary for the many parks and ball fields widely dispersed within the community. Need 1 PSW year-round plus 1 CSA summer for Tudor Park and 102nd St. and Liberty Avenue Park. PS 232 and Judge Memorial park have a PSW in place and need a CSA for summer where no comfort station/maintenance structure exists. Someone should be assigned for a few hours daily.		Area residents.
16/32	DOE	Other educational programs requests	Establish a contribution by the Department of Education for Joint Operated Playgrounds. Joint operated playgrounds are presently maintained/operated solely with Parks Department personnel and budget. Due to severe cutbacks, the responsibility must be shared as joint operated implies. Dept. of Education must contribute a fair share to this program. This is a matter of safety for the children that use these playgrounds.		area residents
17/32	DSNY	Other garbage collection and recycling requests	Remove two Districts (CDs 8 and 12) from the Bergen Landing facility. The overcrowded facility adversely impacts the adjacent residential community. Trucks parked/stored outside generate foul odors.	Bergen Landing facility	Area residents
18/32	DSNY	Other cleaning requests	Request for mechanical broom for Community Board 10 for daily basis, 6 days a week, Monday through Saturday. Needed to maintain adequate levels of street cleanliness throughout Community Board 10.		Area residents
19/32	FDNY	Expand funding for fire prevention and life safety initiatives	Support mobile CPR unit. With additional funding FDNY can produce instructional DVDs in multiple languages, increase their community outreach and conduct more classes throughout all 5 boroughs especially on the weekends.		Area residents
20/32	DSNY	Provide more on-street trash cans and recycling containers	request purchase of high-end litter baskets. The high-end little baskets are designed for easier use and maintenance to assure the cleanliness of the community.		Area residents
21/32	ACS	Provide, expand, or enhance funding for Day Care Slots and Head Start Programs	CB 10 suffers from a lack of Early Learn Centers within our District.		
22/32	DFTA	Increase case management capacity	Support case management, increased allocation for meals, funding for elder abuse programs and to improve transportation. The request is to ensure agency resources are sufficient to fulfill agency mission.		Area residents
23/32	DOT	Other traffic improvements requests	Support Safe Streets for Seniors program. With additional funding, DOT can increase their community outreach		Area Residents
