INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and the Community Board Budget Requests (Budget Requests) are Charter requirements and an integral part of the City's budget process. When developed through informed planning and careful consideration, CD Needs Statements and Budget Requests can play an important role in consultations of community boards with agencies, elected officials and other key stakeholders on a broad range of local planning and budget priorities. These tools also provide a valuable public resource for neighborhood planning and research purposes, and are used by a wide audience seeking information about New York City's diverse communities.

This year, for the first time, community boards electronically submitted a CD Needs Statement combined with their Budget Requests. The goal of these improvements is to simplify preparation of both documents for the community boards and to make the information community boards provide more easily accessible for City agencies and other stakeholders. Simplified and more efficient processes will allow all parties involved in the budget process to consider budget decisions more thoroughly, with better results for all New Yorkers.

This report represents Brooklyn Community Board 10's Statement of Community District Needs and Community Board Budget Requests for Fiscal Year (FY) 2017. This report contains the formatted but otherwise unedited content provided by the Community Board which is displayed in italics.

Some community boards provided substantive supplemental information. This supportive material can be accessed by clicking on the links provided in the document or by copying and pasting them into a browser.

2. OVERVIEW OF COMMUNITY DISTRICT

Brooklyn Community Board 10 provided the following overview of their district:

The geographic district of Community Board Ten of Brooklyn encompasses the three neighborhoods of Bay Ridge, Dyker Heights and Fort Hamilton, which are situated along the southwestern tip of Brooklyn. Defining the southern and western borders of our district are the waters of the Verrazano Narrows. To the North, the L.I.R.R./MTA railroad cut from the shoreline at 65th Street, proceeds eastward to 62nd Street, where our district merges with our eastern border at 14th Avenue. The Fort Hamilton area, which follows the southern shoreline, is comprised of historic Fort Hamilton, located near the magnificent span of the Verrazano Bridge and overlooking New York Harbor.

Community District Ten parkland totals 352.51 acres spread across 17 parks. Parks within Community District Ten provide a multitude of diversified athletic and passive recreational facilities to thousands of residents and visitors throughout the year. It is home to several commercial corridors including Bay Ridge Avenue, 3rd Avenue, 4th Avenue, 5th Avenue, Fort Hamilton Parkway, 11th Avenue, 13th Avenue and the bustling 86th Street strip. These commercial corridors are mostly comprised of street level retail stores that provide needed goods, services and employment opportunities for the community. There are currently two Business Improvement Districts operating within Community District 10. They include the Fifth Avenue BID which runs along 5th Avenue from 65th Street to 85th Street and the 86th Street Business Improvement District which includes the area of 86th Street from 4th Avenue to Fort Hamilton Parkway; 5th Avenue from 85th Street to 88th Street; 4th Avenue from 85th Street to 87th Street. The 86th Street BID offers a mix of small mom and pop businesses and a growing number of larger retail chain stores. One and two family homes comprise the major portion of the housing composition and aging multiple dwellings together with some new structures, line Shore Road, Ridge Boulevard and 4th Avenue, while smaller clusters of four to six story structures are randomly situated in other areas of the district. Community District 10 has limited vacant land and the NYU Furman Center report lists CD10 among the five lowest Community Districts in the City of New York in its category "Unused Capacity Rate" (percentage of land area). A comprehensive zoning analysis of Bay Ridge was completed and presented to the New York City Department of City Planning in December of 2003. The Special Bay Ridge District was rezoned using lower density contextual districts on March 23, 2005. Dyker Heights and Fort Hamilton were also rezoned using the lower density contextual districts on July 25, 2007. Total population in Community Board Ten as reported in the 2010 Brooklyn Community District Profile is 137,599 up from 124,491 in the 2000 Census. Community District Ten is located in Southwest Brooklyn – an area of Brooklyn cited by the New York City Department of Planning as being undercounted in the 2010 Census. Most notable changes in census population data within Community District 10 include future growth in our population in the age category of 45 to 64 years. The demographic profile indicates the total population category of residents ages 45 to 64 years grew from 27,633 or 22.5 percent of the overall population in 2000 to 32,821 or 26.4 percent. The number of residents 65 years or older changed slightly from 19,850 or 16.2 percent of population to 18,054 or 14.5 percent of our population reported in 2010 census. The District is ethnically diverse with early Norwegian, Italian, Irish, Greek, Middle Eastern settlers embracing newer ethnic residents from China, Middle East, Mexico and Central America. The ethnic and racial mix of the district's population continues to shift with the out-migration of earlier established ethnic groups and the influx of Asian settlers with the largest change in growing Chinese population amounting to a 46.8 percentage increase from 2000 to 2010. The 2000 Census reports Asian or Pacific Islander Non Hispanic residents at 17,546 or 14.3% of population and in 2010 at 25,766 or 20.7 % of the population. This growth category was followed by 33.4 percent increase change in those of Hispanic Origin. Census data shows in 2000 residents identifying as being of Hispanic Origin was 13,396 or 10.9% of population as compared to an increase in 2010 to 17,868 or 14.4% of the population. Community Board Ten continues to proactively advocate preserving and strengthening our community by monitoring service related complaints and discussing budgetary needs and community requests with appropriate city agencies to ensure responsiveness and effective service delivery.

3. MAIN ISSUES

As part of this year's process, community boards were asked to select from a list the three most pressing issues facing their district. Brooklyn Community Board 10 identified the following three issues:

- *Parks*
- *Quality of life issues and neighborhood preservation*
- *Schools*

Brooklyn Community Board 10 provided the following explanation for their choices:

SCHOOLS Community School District 20 serves Community Board Ten. It is ranked as the most overcrowded district in the City of NY. Overcrowded schools is a top priority of this Board. Its schools rank among the best in the city - overcrowding must be addressed. In addition, the quality of our educational facilities has a direct bearing on the stability of our community. Much needed capital improvements commenced but more improvements need to be addressed. Alleviating overcrowding is a top priority. Early childhood center space is critically needed throughout Community District Ten. We will continue our commitment to support the school's capital improvement programs for our district and to advocate for equitable funding for our schools.

NEIGHBORHOOD PRESERVATION - Community Board Ten has worked closely this past year with the Brooklyn Housing Preservation Alliance to tackle the ever growing problem of the illegal conversions of one and two family homes into multiple dwellings or Single Room Occupancies. *PARKS* - Twenty - two of Thirty One-Seven CB10 Capital Priorities are requests for improvements to local parks. Community District Ten parkland totals 352.51 acres spread across 17 parks. Parks within Community District Ten provide a multitude of diversified athletic and passive recreational facilities to thousands of residents and visitors throughout the year.

4. SUMMARY OF COMMUNITY DISTRICT NEEDS AND COMMUNITY BOARD BUDGET REQUESTS

Community Boards were asked to identify their district's needs related to the following seven policy areas:

- Health Care and Human Services;
- Youth, Education and Child Welfare;
- Public Safety;
- Core Infrastructure and City Services;
- Land Use, Housing and Economic Development;
- Transportation; and
- Parks, Cultural and other Community Facilities.

Based on the needs identified, community boards then had the opportunity to make budget requests to address these needs.

The following sections describe the specific needs and budget requests of Brooklyn Community Board 10 for FY 2017.

4.1. Health Care and Human Services Needs and Requests

Main Issue

Programs, services or facilities for seniors

The Community Board provided the following explanation for the above issue:

Members of Community Board Ten continue to advocate for community based funding to provide needed services to help our senior population age in place. Additionally, the need to increase senior support services including access to Supplementary Nutrition Assistance Program, meals on wheels, homecare assistance and recreational services is of growing concern to local senior residents within Community District 10. It has been reported to our office that there is currently a two month waiting period for seniors seeking to receive meals on wheels service in Community District Ten. With 25 % of Community District 10 population over 60, the demand for services is constant. At present our community is served by three senior centers, a few senior clubs that meet weekly and one satellite cen

Community District Needs and Requests

4.1.1. Community District Needs and Requests Related to Health Care Facilities and Programming

The Community Board provided the following high level comments and background on the District's needs:

There continues to be great concern following the closing of the only general hospital located within Community District 10. Victory Memorial Hospital closed its doors in 2008. Local neighboring emergency rooms at Maimonides Medical Center and NYU Lutheran Medical Center are grappling with extremely overcrowded Emergency Rooms on a regular basis. A growing population in Community District 10 requires additional access to emergency room care and inpatient facilities. Additionally, Community District 10 has been faced with an increase in opioid, heroin, ketamine and synthetic drug usage and overdoses. A recent satellite intake office was opened within District 10 to provide needed counseling and referral services.

The Community Board submitted the following budget requests:

Budget Requests are listed for informational purposes only. OMB maintains the definitive list that may have more updated information on request for agencies, published in its Register.

4.1. Health Care and Human Services Needs and Requests

4.1.1. Community District Needs and Requests Related to Health Care Facilities and Programming

Expense Requests related to Health Care Facilities and Programming (as provided by the Community Board)

Priority numbers apply to expense budget requests from all policy areas. A complete list of expense budget requests by this Board sorted by priority can be found in Section 5.2. of this document.

Priority	Agency	Need	Request	Request Explanation	Location	Supporters
14	DOHMH	Animal and pest control services	Reduce rat populations	Increase staffing levels for inspection and baiting services for rodent control. Proliferating problems created by rodent infestation along lots and highway properties and other pest related problems must be addressed by enhancing the workforce for pest control.		
15	DOHMH	Animal and pest control services	Reduce mosquito populations	Increase staffing levels for mosquito control efforts. This is needed in areas of high mosquito concentration to curtail spread of West Nile Virus.		
17	DOHMH	Animal and pest control services	Other animal and pest control requests	To provide and implement a long term plan to eradicate bed bugs. Bed bug infestation is a growing citywide problem. In Community District 10 area residents are concerned about the growing problem of bed bug infestation, specifically new infestations in the subways. We are also concerned about the economic toll it places on local families who are struggling to make ends meet. Extermination of an average two bedroom apartment can cost over \$1,000 with additional cost to replace mattresses, furniture and clothing. Members would like to see a citywide forum with a goal of providing and implementing a long term plan to deal with		

4.1. Health Care and Human Services Needs and Requests

4.1.2. Community District Needs and Requests Related to Facilities and Programming for Older New Yorkers

The Community Board provided the following high level comments and background on the District's needs:

Members of Community Board Ten continue to advocate for community based funding to provide needed services to help our senior population age in place. Additionally, the need to increase senior support services including access to Supplementary Nutrition Assistance Program, meals on wheels, homecare assistance and recreational services is of growing concern to local senior residents within Community District 10. It has been reported to our office that there is currently a two month waiting period for seniors seeking to receive meals on wheels service in Community District Ten. With 25 % of Community District 10 population over 60, the demand for services is constant. At present our community is served by three senior centers, a few senior clubs that meet weekly and one satellite center in a senior housing complex. The Senior Issues Committee of Community Board 10 submitted a report on its vision of future needs of senior residents in Community District 10. The report discusses the development of centers to meet the changing needs of the older population. It described the diverse needs of the growing elder population which spans several subgroups. The senior groups are defined as follows: 1. Newly retired 60 + senior who is active and still working or volunteering. 2. The established and healthy older person who is fully enjoying retirement and interested in leisure activities 3. The "aging in place" frailer elder who may need care services and supports to remain independent in the community. 4. The home bound and impaired elderly who needs daily home care and personal care service. Seniors in our community are not a monolithic group. The young active senior needs innovative programs. The seniors in the middle need to be comfortable and maybe give some of their experience away as mentors to the community youth. Finally the frail elderly need "hands on" care and support. These are diverse needs for a truly diverse population. Community Board 10 will continue to advocate for funding that supports the future needs of its seniors who live in within the district.

The Community Board submitted the following budget requests:

Budget Requests are listed for informational purposes only. OMB maintains the definitive list that may have more updated information on request for agencies, published in its Register.

Capital Requests related to Facilities and Programming for Older New Yorkers (as provided by the Community Board)

Priority numbers apply to capital budget requests from all policy areas. A complete list of capital budget requests by this Board sorted by priority can be found in Section 5.1. of this document. CS in the priority column indicates the Board's Continued Support for a fully or partially funded project.

4.1. Health Care and Human Services Needs and Requests

4.1.3. Community District Needs and Requests Related to Facilities and Services for the Homeless

At this time, the Community Board does not have any high level comments or budget requests for this need category.

4.1.4. Community District Needs and Requests Related to Services and Programming for Low-Income and Vulnerable New Yorkers

At this time, the Community Board does not have any high level comments or budget requests for this need category.

4.2. Youth, Education and Child Welfare Needs and Requests

Main Issue

Capacity of educational facilities

The Community Board provided the following explanation for the above issue:

Since 2000 four new public school buildings have increased the total number of elementary seats in Community District 10. The newly constructed schools include P.S. 69, P.S. 264, P.S. 310 and PS/IS 30. Large scale capital additions to existing schools to address overcrowding include projects at P.S. 170, P.S. 185 and I.S. 259. Overcrowding is a problem in many schools within Community District 10. All elementary schools within Community District 10 are vastly exceeding enrollment targets in Community District 10. P.S.176 with an enrollment of 1414 students exceeds its target population of 808 students.

Community District Needs and Requests

4.2.1. Community District Needs and Requests Related to Educational Facilities and Programs

At this time, the Community Board does not have any high level comments or budget requests for this need category.

4.2.2. Community District Needs and Requests Related to Services for Children and Child Welfare

At this time, the Community Board does not have any high level comments or budget requests for this need category.

4.2.3. Community District Needs and Requests Related to Youth and Community Services and Programs

At this time, the Community Board does not have any high level comments or budget requests for this need category.

4.3. Public Safety Needs and Requests

Main Issue

Rapid response in service delivery

The Community Board provided the following explanation for the above issue:

Community Board Ten is coterminous with the 68th Police Precinct. While crime statistics are among the lowest in New York City within the top CompStat categories, quality of life complaints and other police enforcement issues continue to require police attention. The decline in the number of police officers assigned to the 68th Police Precinct has impacted response time and many residents would like to see a better service delivery response to daily police related needs. Examples include, disorderly groups, noise complaints, commercial vehicle parking on the sidewalk and street - other routine illegal parking habits. Open Data demonstrates increase calls to 311 for non-police emergencies. 311 total calls in 2010 - 2383; 2011 - 2771; 2012 - 5006; 2013 - 5,748; 2014 - 9,374.

Community District Needs and Requests

4.3.1. Community District Needs and Requests Related to Policing and Crime

The Community Board provided the following high level comments and background on the District's needs:

Community Board Ten continues to advocate for increases in patrol strength in the 68th Police Precinct. While the 68 Precinct is among the safest in New York City, they respond to growing numbers of quality of life issues. Quality of life matters are very important to the residents of Bay Ridge, Dyker Heights and Fort Hamilton. We also advocate for supplemental services for assistance with specific problems relating to an increase of heroin, opioid, ketamine, synthetic drugs and marijuana street level sales. Enforcement includes assistance from VICE and other investigative units like Brooklyn South Narcotics. Also, proliferation of unlicensed Day Spas - with some engaged in illegal prostitution and possible human trafficking requires specific investigative resources. The allocation of School Crossing Guards has remained at 30 despite the addition of five new schools, countless new Pre-K programs and changing demographic pedestrian patterns in high crash locations. This has increased public demand for additional school crossing guards.

The Community Board submitted the following budget requests:

4.4. Core Infrastructure and City Services Needs and Requests

Main Issue

An important infrastructure issue facing Community District 10 is an aging water/Combined sewer system - and other underground utilities that were installed at or over 100 years ago. There is no longer a proactive capital improvement program for District 10, all sewer breaks and recurring street depressions are handled as emergency repairs. The notification system for Sewer Repair Notices to Community Boards which detailed sewer breaks was discontinued by the Department of Environmental Protection and replaced with an inadequate system. Data is not available for Corrective Action Reports submitted to the DEP. CB10 had a major collapse of a tunnel requiring costly emergency repair work that lasted over one year in 2012 and currently has 15 recurring street depressions that may be caused by aged infrastructure.

The Community Board provided the following explanation for the above issue:

Failure to proactively maintain and plan for sewer line replacement can have devastating effects on any community. In 2012 Community Board Ten notified DEP of a sinkhole that was first observed when a newly planted tree caved into below the ground. The cause was a break in an 11-foot diameter sewer tunnel on 92nd Street between 3rd Avenue and Ridge Boulevard in Community District 10. The sewer was built in 1902, and carries 15 to 28 million gallons of wastewater daily to the Owls Head wastewater treatment plant. Failure to maintain this sewer tunnel and our aged sewer/water main infrastructure can have dangerously serious impact on businesses, residents and property. Repairs to the tunnel took well over one year.

Community District Needs and Requests

4.4.1. Community District Needs and Requests Related to Water, Sewers and Environmental Protection

The Community Board provided the following high level comments and background on the District's needs:

A Proactive capital plan is needed for upgrades of a very aged sewer/water main infrastructure in Community District Ten. In addition, Community District Ten is home to the Owl's Head Wastewater Treatment Plant which opened in 1952. This plant treats up to 120 million gallons of wastewater per day for the 758,007 New Yorkers it serves. Complaints about odors emanating from the plant are a top priority for CD10 and upgrades to ensure odor control are critical.

The Community Board submitted the following budget requests:

4.4. Core Infrastructure and City Services Needs and Requests

4.4.2. Community District Needs and Requests Related to Sanitation Services

The Community Board provided the following high level comments and background on the District's needs:

Essential to the viability of any community are effective sanitation services. In CD 10, we have focused our efforts to support timely cyclical equipment replacement with special emphasis on mechanical brooms and snow plows which must withstand the rigors of extensive use. We are in critical need of clean team forces and Mobile Litter Patrol to maintain our many overpasses, pedestrian walkways and sidewalks near/adjacent to city properties. Street cleanliness on our commercial streets is a top priority and DSNY support to all merchant strips is imperative to their continued success. This is especially true in the Business Improvement Districts that have supplemental service but also require DSNY to support with corner basket collection.

4.5. Land Use, Housing and Economic Development Needs and Requests

Main Issue

Zoning review and enforcement, and code enforcement

The Community Board provided the following explanation for the above issue:

Zoning review and enforcement and code enforcement are needed to maintain safety in building construction and community character. A complete zoning review of CD 10 was adopted in 2005 for Bay Ridge and 2007 for Dyker Heights following years of work. Zoning compliance of these adoptions are critical. The growing problem with illegal conversions in one and two family dwellings and the blatant disregard of the zoning resolution needs to be addressed.

Community District Needs and Requests

4.5.1. Community District Needs and Requests Related to Land Use

The Community Board provided the following high level comments and background on the District's needs:

Additional staffing including inspectors is needed to address enforcement of illegal conversions in one and two family homes in Community District Ten as well as conversions of commercial properties to nonconforming uses.

At this time, the Community Board does not have any high level comments or budget requests for this need category.

4.5. Land Use, Housing and Economic Development Needs and Requests

4.5.3. Community District Needs and Requests Related to Economic Development

The Community Board provided the following high level comments and background on the District's needs:

There are two Business Improvement Districts with Community District 10. They are the 86th Street BID and the 5th Avenue BID. There are current plans to form a 13th Avenue BID. The Community Board supports merchant organizing and BID formation.

At this time, the Community Board does not have any budget requests for this need category.

4.6. Transportation Needs and Requests

Main Issue

Traffic safety

The Community Board provided the following explanation for the above issue:

Traffic and roadway safety are a paramount concern to the members of Community Board Ten. Currently, Community Board Ten's Committee on Traffic and Transportation is working on several projects relating to the Mayor's Vision Zero objectives to improve pedestrian safety on local streets. In FY 2016, CB 10 with the assistance of DOT approved several safety initiatives including improvements to the 65th Street and the 4th Avenue corridors, school zones as well as a district wide bicycle network.

Community District Needs and Requests

4.6.1. Community District Needs and Requests Related to Traffic and Transportation Infrastructure

The Community Board provided the following high level comments and background on the District's needs:

Community Board Ten Traffic and Transportation committee annually reviews the condition of local roadways and reports its findings to the New York City Department of Transportation. It recently submitted a list of locations of infrastructure concerns where the roadbed cave-ins and depressions recur. Following the elimination of the DEP Trench Restoration contract, many street beds in CD10 need to be studied to determine if they require capital infrastructure improvements. In recent years street resurfacing is on a yearly cycle but only thirty percent of requested roadways in Community District Ten are expected to be paved during the next cycle. The curb replacement capital plan is every 5 to 7 years or more and broken curbs continue to be a source of complaints from property owners.

4.6. Transportation Needs and Requests

4.6.2. Community District Needs and Requests Related to Transit Services

The Community Board provided the following high level comments and background on the District's needs:

Improving public transportation is a top priority within Community District 10. The district is served by the R and N lines. From 2007 through 2011, the R line that runs along 4th Avenue has seen ridership increases from Bay Ridge Avenue (4.1%); 77th Street (5.1%); 86th Street (6.8%) and 95th Street (5.3%). Expanding service on both the R and N lines is a top priority. The modernization and rehabilitation of the 86th Street Station including handicapped accessibility on the R Line is needed. The remaining stations on the R-Line at 95th Street, 77th Street, Bay Ridge Avenue are also in need of modernization. The N line at both 8th Avenue and Fort Hamilton Parkway had service reductions affecting service and no longer provide express service into Manhattan. Local residents continue to advocate for the restoration of N Express service in Manhattan. Both N stations located within Community District 10 at 8th Avenue and Fort Hamilton Parkway are scheduled for rehabilitation which will include the first accessible location at 8th Avenue. Additionally, members of Community Board Ten have urged NYC Transit to reopen the 7th Avenue entrance to better serve commuters at the heavily travelled 8th Avenue station. A restoration of Express Bus Service X27/28 and X37/38 was made to assist weekend commuters. Express Bus Weekend Service, specifically the X-27 and X-28 remains a valuable form of transportation to scores of commuters including the disabled, seniors, students and local residents. Efforts are in place to extend a Bay Ridge Stop to the Staten Island X17 bus on the weekend; however a full restoration is warranted. Express Bus Service needs to be expanded throughout Community District Ten. Current service is at capacity and surveys to extend service into portions of Dyker Heights, Bay Ridge and Fort Hamilton should be reviewed. Growing demand to the College of Staten Island, Staten Island Mall and Staten Island commuters affected by rising toll costs has resulted in the expansion of Staten Island bus service on the S53, S79 and S93 lines. The expansion of bus stops at the intermodal connection point along 4th Avenue at 86th to 88th Streets is affecting both pedestrian and traffic impacts along this area located within the busy 86th Street Business Improvement District. R Train maintenance, cleanliness and safety is of importance at all loca

4.7. Parks, Cultural and other Community Facilities Needs and Requests

Main Issue

Quality of parks and park facilities

The Community Board provided the following explanation for the above issue:

The quality of parks and park facilities is of paramount concern to the residents of Community District Ten. A significant amenity for our community's urban environment is provided by the quality and viability of our district's parklands. The parks within our district have an advantageous geographic proximity to magnificent natural vistas and offer the availability of numerous athletic and recreational facilities, which provide local families and provide residents great enjoyment. As these parklands are among the most highly utilized in our city, the ever-increasing demand for the use of these facilities is commensurable to the increasing need for their expeditious restoration and maintenance.

Community District Needs and Requests

4.7.1. Community District Needs and Requests Related to Parks and Recreational Facilities and Programming

The Community Board provided the following high level comments and background on the District's needs:

*Our concerns for the restoration and preservation of our parks are annually emphasized through the high capital improvement priorities we award to park projects. These indicators of our concerns have initiated funding for major restoration of several playgrounds and athletic facilities. However, restoration projects to many of our playgrounds and parklands have been deferred because of funding constraints. While the citizens of our community have endeavored to address the need for improvements in our parks through their commendable efforts to organize volunteer clean-up programs and ambitious fund raising campaigns, these initiatives cannot replace the urgent need to enhance the ongoing maintenance services in our parks on a daily basis. The provision of the needed resources will improve the maintenance operations and productivity levels to restore the parks to their former viability. *Maintenance operations is critical to preserving refurbished parks in the Community District 10 area. Recreational programs expansion is needed and recreational staffing levels as well as security staffing levels must be increased to provide for the needs of youngsters, adults and senior citizens. The provision of security personnel for the Parks Enforcement Patrols is needed to deter vandalism and criminal activity so that our capital investments are protected. Nineteen of our twenty-seven Capital Priorities are for improvements to local parks. In the last two years, the Shore Road Promenade tops our list of concern following recurring sinkholes that have emerged along the recently refurbished bicycle and pedestrian pathway. Forty Eight sinkholes are currently being repaired in an emergency contract. The span was completely restored in 2007 at a cost of over \$20 million; however, following coastal storms including Superstorm Sandy and Hurricane Irene breaches along the entire Shore Road Promenade threaten its stability as well as that of the adjacent Belt Parkway. The interior paths inside Shore Road Park are crumbling and in dire need of refurbishment. McKinley Park, John Paul Jones Park, Dyker Beach Park, JJ Carty Park, Vinland Playground and Dyker Beach Park Asphalt Playground are all recommended for capital funding projects.*

4.7.3. Community District Needs and Requests Related to Library Facilities and Programming

The Community Board provided the following high level comments and background on the District's needs:

Our libraries provide a multitude of services within the community. In addition to special programs geared toward special groups, these facilities furnish a myriad of educational, cultural, recreational, business and social needs for countless citizens. It is therefore imperative that our library system be supported and enhanced by maintaining the staffing levels for operational efficiency and providing continuous book and other inventory materials, expansion of computerization and programming restoration to assure that the Brooklyn Public Library receives its fair share of the citywide allocated funds. The six day service will be maintained.

4.7. Parks, Cultural and other Community Facilities Needs and Requests

4.7.4. Community District Needs and Requests Related to Community Boards

The Community Board provided the following high level comments and background on the District's needs:

The role of Community Boards has broadened over recent years. Community Boards have greater responsibilities and serve as an essential component of city government. Combined with their charter-mandated responsibilities, they act as a catalyst between agencies and the community. In recent years, land use review, planning and related requisite reviews of New York State Liquor Authority and other municipal applications have placed additional demands of staff. Adequate funding should be made available for Community Boards so that they can fulfill their charter-mandated responsibilities including funding for additional staff to assist with daily responsibilities.

The Community Board submitted the following budget requests:
