Household Income Distribution (2014\$)

2000 2011-13

Racial and Ethnic Composition

2000 2011-13

* These indicators use three-year estimates from the American Community Survey (ACS) for certain years. All data under the 2000 heading comes from the 2000 Census. Generally, data under 2007 are from the 2005-2007 ACS, data under 2010 are from the 2009-2010 ACS, and data under 2013 are from the 2011-2013 ACS. Under the 2010 heading, four indicators—homeownership rate, severe crowding rate, households with children, and population age 65 and older—come from the 2010 Census. See the ACS section in the Methods chapter for more information. %Percentage of all rental housing units. %Percentage of all rental housing units. Represents 2012 conditions. *Represents 2014 conditions. *Ranked out of 12 community districts where this property type was the predominant type sold in 2000-2014.

LETTER FROM THE COMMUNITY BOARD (continued)

Community Board 10's population is diverse as this census block group diversity index map of southern Queens depicts. (shades of blue indicate areas more diverse)

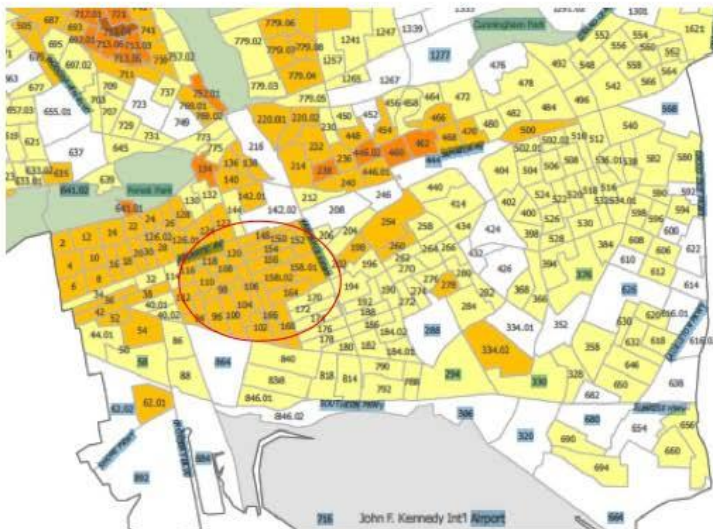

Each and every year since 2007, the NYU Furman Center for Real Estate and Urban Policy's annual publication, State of New York City's Housing and Neighborhoods, has reported that we are the most racially diverse community district in the city. No single group comprises a majority population in Community Board 10 as a whole.

The majority of the census tracts within our Board area (84%) have populations in which minority groups together (Black + Asian + Hispanic) comprise the majority. However, as the map to the right shows there is considerable diversity in most of those census tracts. The number within each tract represents the population percentage of the largest group in the tract. The largest group in most tracts is not a majority of the population. (circled numbers indicate where there is a majority population in the tract) In most of the tracts in our district there may be more of one group or another, but overall, the populations are very diverse. (map source: Predominant Population http://atlasmaps.esri.com/arcgis/rest/services/Census2010/Predominant_Population/MapServer) (labels added)

This excerpt from DCP's population density map by census tract

(Census 2010) clearly shows that most of our census tracts located north of Rockaway Blvd. are among the most densely populated anywhere in southern Queens. (Map segments shaded darker indicate higher densities. The general area circled in red is the portion of Community Board 10 located north of Rockaway Blvd.)

INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and the Community Board Budget Requests (Budget Requests) are Charter requirements and an integral part of the City's budget process. When developed through informed planning and careful consideration, CD Needs Statements and Budget Requests can play an important role in consultations of community boards with agencies, elected officials and other key stakeholders on a broad range of local planning and budget priorities. These tools also provide a valuable public resource for neighborhood planning and research purposes, and are used by a wide audience seeking information about New York City's diverse communities.

This year, for the first time, community boards electronically submitted a CD Needs Statement combined with their Budget Requests. The goal of these improvements is to simplify preparation of both documents for the community boards and to make the information community boards provide more easily accessible for City agencies and other stakeholders. Simplified and more efficient processes will allow all parties involved in the budget process to consider budget decisions more thoroughly, with better results for all New Yorkers.

This report represents Queens Community Board 10's Statement of Community District Needs and Community Board Budget Requests for Fiscal Year (FY) 2017. This report contains the formatted but otherwise unedited content provided by the Community Board which is displayed in italics.

2. OVERVIEW OF COMMUNITY DISTRICT

Queens Community Board 10 provided the following overview of their district:

Community Board 10 is located in Southwest Queens. Within the Board's boundaries are all of the Howard Beach communities located within zip code 11414; all of those communities located within Ozone Park zip code 11417; all of the South Ozone Park zip code 11420 communities; and approximately half of the Richmond Hill South zip code 11419. A small part of zip code 11430 is also within our boundaries, but it is not populated, except for a homeless shelter, as most of that zip code's geography is on-airport. Community Board 10 encompasses approximately 4,000 acres and just over 6 square miles of the borough's land area. Our Board abuts JFK International Airport and Jamaica Bay. What occurs at both are important to our residents. New York City's only casino facility is located virtually in the center of our Board area. All the communities located within our Board are in close proximity to it. People in all of our communities share similar concerns regarding current activity and potential future development plans.

Community Board 10, located in Southwest Queens, is racially diverse and generally economically stable. Our district has a large foreign-born population and a growing senior population. Approximately 1/3 of our district's land area was inundated by Superstorm Sandy's floodwaters in 2012. Sandy negatively impacted about 20,000 of our residents and caused damage to approximately 5,000 homes and many of our businesses.

General Needs:

- *Housing – continued building code enforcement; better strategies to provide adequate maintenance of vacant/abandoned homes; better strategies to identify current owners of vacant properties; effective requirement for ongoing maintenance of vacant homes*
- *Land Use – contextual rezoning; implementation of resiliency projects; prohibit pawn shops as allowable in C2 use groups; eliminate off-street parking requirement waivers for community facilities and commercial development; increase DOB inspection personnel; review/alter DOB self-certification process; insure use/occupancy code compliance*
- *Transportation – provide reliable bus service without reducing travel lanes for other vehicles; expand express bus service; implement “Super A” subway service; continue rehabilitation of all el stations; increase accessibility to all el stations not yet made accessible; construct southbound Aqueduct Station platform; maintain parking availability on commercial corridors; provide Q11 late night service; improve accessibility to Hamilton Beach; reduce speeding; enforce parking regulations; improve infrastructure project pedestrian/vehicle safety measures; periodically review implemented traffic calming measures and correct negative impacts; require Community Board review of parking regulation changes; post No Truck signage; continue implementation of Vision Zero policy;*
- *Parks – assign maintenance personnel at each park daily; provide year round recreation services in parks; expand summer programs for youth; provide appropriate recreation services and facilities for seniors; provide a recreation center; provide a swimming pool; provide a park facility north of Rockaway Blvd.; expand forestry service; increase forestry personnel*
- *Public Facilities - expand library service; increase funding to Boys & Girls Club of MetroNY; provide for local review of youth services funding; restore Youth Coordinator position; eliminate all fees for public purpose use of school buildings; construct new schools; expand school art and music programs; identify sites for PreK services; provide additional senior centers; close Skyway Men's Shelter and reopen former Skyway Family Shelter; require Community Board review of proposed ACS facilities*
- *Public Safety – substantially increase number of permanently assigned police officers in 106th Pct.; support peace officer status for Resorts World security force; expand noise violation enforcement; reduce backlogs; increase response times; improve 311 complaint intake process; increase critical infrastructure protection; expand OEM education initiatives; improve response during non-catastrophic tidal flooding events in Hamilton Beach and Old Howard Beach; expand fire safety education; continue distribution of smoke and CO2 detectors*

2. OVERVIEW OF COMMUNITY DISTRICT

Queens Community Board 10 provided the following overview of their district:

- *Water, Sewer, Sanitation – inspect, clean, and repair all catch basins; clean all catch basins in Sandy zone annually prior to hurricane season; resolve long-standing poor drainage conditions; expand installation of green infrastructure in poor drainage areas; develop and employ better strategies to insure cleanliness of vacant lots; expand basket collection on commercial strips; provide daily collection of school garbage during 4-12 PM time period*
- *Economic Development – expand business services; provide more grants to business owners in Sandy zone • Resiliency, Sustainability – provide surge protection; protect power supply; prevent sewer backup; protect vulnerable population; improve Build it Back; construct bulkheads; provide incentives to encourage elevation and/or relocation of critical building utilities; upgrade sewage pumping station; support and implement all components of Howard Beach NY Rising recommended projects; implement ecosystem restoration project in Spring Creek Park*
- *Community Boards – continue to baseline budget; restore agency business parking permits to Board Chairpersons; improve 311 and other reporting systems*

3. MAIN ISSUES

As part of this year's process, community boards were asked to select from a list the three most pressing issues facing their district. Queens Community Board 10 identified the following three issues:

- *Crime*
- *Schools*
- *Street flooding*

Queens Community Board 10 provided the following explanation for their choices:

Schools in CB10 are overcrowded. PreK seats are needed. Youth population in parts of the district is increasing. New schools are needed. Music, art, and physical education programs need expansion.

In the calendar year 2000-2014 time period, major felony crime was up in the 106th Precinct in 7 of the 15 years reflected. We experienced increased major felony crime in calendar years 2011, 2012, and 2013. Major felony crime decreased in calendar year 2014. To date in calendar year 2015 we are again experiencing increased crime. In the 10 full calendar years for which we have 1147 311 data about complaints referred to the NYPD, we have experienced increases in 6 of the years in the 2005-2014 time period. In calendar year 2014, there were approximately 2,000 more quality of life complaints than in 2013. The 2014 crime decrease came at the expense of addressing our quality of life complaints. Our precinct needs many more officers in order to be able to adequately address both crime and quality of life concerns. Our critical infrastructure must be protected.

Our district was severely impacted by flooding from Superstorm Sandy. Since Sandy, our Lindenwood community has experienced damage from stormwater flooding during rain events due to issues related to the sewer system. Surge protection and other resiliency projects must be implemented. Our stormwater drainage system must be fully inspected and upgraded, particularly in all parts of Howard Beach. Areas where there are long-standing ponding conditions throughout our district must be addressed.

4. SUMMARY OF COMMUNITY DISTRICT NEEDS AND COMMUNITY BOARD BUDGET REQUESTS

Community Boards were asked to identify their district's needs related to the following seven policy areas:

- Health Care and Human Services;
- Youth, Education and Child Welfare;
- Public Safety;
- Core Infrastructure and City Services;
- Land Use, Housing and Economic Development;
- Transportation; and
- Parks, Cultural and other Community Facilities.

Based on the needs identified, community boards then had the opportunity to make budget requests to address these needs.

The following sections describe the specific needs and budget requests of Queens Community Board 10 for FY 2017.

4.1. Health Care and Human Services Needs and Requests

Main Issue

Programs, services or facilities for seniors

The Community Board provided the following explanation for the above issue:

Services to seniors in our district need to be increased. Census 2010 reported we have almost 22,000 residents over age 60. Approximately 7,000 more of our residents will reach age 60 over the next few years. There is only one city funded senior center in our district to serve a large and growing population of older residents. When services should have been expanding to meet the needs of our growing senior population, we have experienced services being diminished. There is a need to fully fund and re-open the Wakefield Senior Center to serve our growing senior population in South Ozone Park. There is also a need to develop a new properly operated center to replace the de-funded center that formerly served many of our Indo- Caribbean seniors as that population is also growing.

Community District Needs and Requests

4.1.1. Community District Needs and Requests Related to Health Care Facilities and Programming

The Community Board provided the following high level comments and background on the District's needs:

There is no hospital facility in the district to serve our population, many of whom are foreign-born, elderly, or both. In recent years, hospitals have been closed in Queens resulting in less beds within the borough to serve a growing population.

The Community Board submitted the following budget requests:

Budget Requests are listed for informational purposes only. OMB maintains the definitive list that may have more updated information on request for agencies, published in its Register.

Expense Requests related to Health Care Facilities and Programming (as provided by the Community Board) Priority numbers apply to expense budget requests from all policy areas. A complete list of expense budget requests by this Board sorted by priority can be found in Section 5.2. of this document.

4.1. Health Care and Human Services Needs and Requests

4.1.1. Community District Needs and Requests Related to Health Care Facilities and Programming

Priority	Agency	Need	Request	Request Explanation	Location	Supporters
32	DOHMH	Developmental, mental health and substance abuse prevention programs	Create or promote programs to de-stigmatize mental health problems and encourage treatment	Support for mental health services.		

4.1. Health Care and Human Services Needs and Requests

4.1.2. Community District Needs and Requests Related to Facilities and Programming for Older New Yorkers

The Community Board provided the following high level comments and background on the District's needs:

There is only one city-funded senior center located in our district. The sole city-funded senior center in our district was displaced by Superstorm Sandy. It has now moved and is operational at the Catholic Charities operated Peter Striano senior housing facility. This site is located in that segment of the district that has the largest concentration of older residents. About 35% of our district's total of persons over age 60 reside in Neighborhood Tabulation Area QN57 where this senior housing/senior center facility is located. Over 28% of the people who live within QN57 are over age 60. QN57 is the area of our Board inundated by Superstorm Sandy. It is imperative that this center be well funded by DFTA and that its funding be fully immune from any cuts until the community is fully recovered from Sandy impacts. There is a need for additional funding so that appropriate support personnel may be available there daily to assist the thousands of neighborhood seniors now living in damaged homes trying to cope with numerous social and economic issues. Another 15% of our residents who are over age 60 live in QN56 in close proximity to the site. Almost half of our district's over 60 population reside in NTA QN56 and QN57 together. This Catholic Charities facility literally sits on the border between those two NTAs. There is a need for DFTA and other city agencies to work closely with Catholic Charities to bring even more quality services to this facility to better serve our growing senior population. The facility serves the community-at-large as well as its residents.

The Community Board submitted the following budget requests:

4.1. Health Care and Human Services Needs and Requests

4.1.3. Community District Needs and Requests Related to Facilities and Services for the Homeless

The Community Board provided the following high level comments and background on the District's needs:

There is a need to close the Skyway Men's Shelter and reopen Skyway as a family shelter. There is a need to provide additional security at homeless shelters.

The Community Board submitted the following budget requests:

Budget Requests are listed for informational purposes only. OMB maintains the definitive list that may have more updated information on request for agencies, published in its Register.

4.1.4. Community District Needs and Requests Related to Services and Programming for Low-Income and Vulnerable New Yorkers

The Community Board provided the following high level comments and background on the District's needs:

There is a need to provide a multi-service center facility to serve our low income and vulnerable residents. Such a facility would serve to be a one-stop location where information, services, and programs could be provided.

The Community Board submitted the following budget requests:

Budget Requests are listed for informational purposes only. OMB maintains the definitive list that may have more updated information on request for agencies, published in its Register.

Expense Requests related to Services and Programming for Low-Income and Vulnerable New Yorkers (as provided by the Community Board)

30	HRA	Services to support low-income New Yorkers	Provide, expand, or enhance food assistance, such as Food Stamps / SNAP	Support SNAP Outreach Campaign		

4.2. Youth, Education and Child Welfare Needs and Requests

Main Issue

Capacity of educational facilities

The Community Board provided the following explanation for the above issue:

School seats are needed to serve the children of School District 27. Proper educational facilities with a full range of services are imperative for all children. During School year 2014-15 there was no Early Learn Center within CB10.

Community District Needs and Requests

4.2.1. Community District Needs and Requests Related to Educational Facilities and Programs

The Community Board provided the following high level comments and background on the District's needs:

There are 16 public schools with our district. Additional school seats are needed. Sites for new school construction must be located and construction must be expedited to ensure adequate educational facilities for our children. Over 20% of our population is under age 18. The influx of families with school age children continues, particularly in the northern and eastern parts of our area. Many of the school buildings are overcrowded and parents see a diminished range of what is being offered to the students at the elementary school level. More art and music programs are needed. Parents are concerned with the quality of education and the safety factor as students move to the Middle Schools and the High Schools. The physical plants of many of our school buildings still need attention. Appropriate sites for additional Pre-Kindergarten services are needed. Most of the schools in our area have had their play areas diminished in recent years by the placement of transportable classrooms and/or modular additions. Every child in our Community Board area must have a seat in his or her neighborhood school and each school must provide a full range of educational services. Queens has 18% of its children eligible for EarlyLearn NYC programs. Yet out of 362 center-based EarlyLearnNYC, only 38 were located in Queens during the last school year. CB10 had zero despite the fact that 19% of our families with children under 5 located within zipcode 11420, where ACS sited a juvenile justice facility and plans another, live in households with incomes below federal poverty guidelines. EarlyLearn Centers and additional schools would serve our real youth needs far better than juvenile jails.

4.2.2. Community District Needs and Requests Related to Services for Children and Child Welfare

At this time, the Community Board does not have any high level comments or budget requests for this need category.

4.2. Youth, Education and Child Welfare Needs and Requests

4.2.3. Community District Needs and Requests Related to Youth and Community Services and Programs

The Community Board provided the following high level comments and background on the District's needs:

The two budget requests listed in this category may be in the wrong section, but we did not see another spot where they should be listed. We did reach out to City Planning contact person for this form for information order to properly place them, but have not yet received a reply.

Our goal is to have a permanent 5 day a week site and staffing in Community District #10Q to serve as a single point of entry within the community.		Area residents

4.3. Public Safety Needs and Requests

Main Issue

General crime

The Community Board provided the following explanation for the above issue:

There is an ongoing pattern of increased crime that we believe is attributable, at least in part, to an insufficient number of officers assigned to the 106 Pct. There is a large ambient population (10,000,000+ annually) in our district. Quality of Life infraction enforcement is impacted due to increasing need for crime enforcement.

Community District Needs and Requests

4.3.1. Community District Needs and Requests Related to Policing and Crime

The Community Board provided the following high level comments and background on the District's needs:

Crime is increasing in the 106 Pct. and the percentage of crime that occurs within PBQS occurring in the 106 Pct. is also increasing. The number of Quality of Life complaints made to 311 is also increasing.

11	NYPD	NYPD facilities and equipment	Provide surveillance cameras	Support NYPD technology (cameras, plate reader vehicle, GLA tracking programs, CCTV, Argus cameras). Equipment needed to support the Police Department efforts to provide public safety. The presence of Resort World Casino NYC has added significantly to the number of persons within and passing through the 106th Precinct on a daily basis and adds to the critical infrastructure within this district.		Residents of Community Board 10
16	NYPD	NYPD facilities and equipment	Renovate or upgrade existing precinct houses	Build 106th Precinct Parking lot. Lack of parking space in the perimeter of the 106th Precinct arouses residents' ire and blocks trucks and other larger vehicles like fire engines from readily navigating the streets near the Precinct. The precinct block abuts Liberty Ave. which is a congested corridor.	106th Precinct 103-55 101 Street	Ozone Park Civic; 106th Precinct

4.3.2. Community District Needs and Requests Related to Emergency Services

The Community Board provided the following high level comments and background on the District's needs:

Our growing population and the high number of illegal residential units created in cellars and attics point to a need for more emergency services and more/expanded educational programs. Close to half of our residents are foreign-born and some are unaware of basic safety practices common in the U.S. There is an increasing demand for fire services and our fire houses need upgrading of buildings and equipment.

The Community Board submitted the following budget requests:

Budget Requests are listed for informational purposes only. OMB maintains the definitive list that may have more updated information on request for agencies, published in its Register.

Capital Requests related to Emergency Services (as provided by the Community Board)

Priority numbers apply to capital budget requests from all policy areas. A complete list of capital budget requests by this Board sorted by priority can be found in Section 5.1. of this document. CS in the priority column indicates the Board's Continued Support for a fully or partially funded project.

Priority	Agency	Need	Request	Request Explanation	Location	Supporters
25	FDNY	FDNY facilities and equipment	Rehabilitate or renovate existing fire houses or EMS stations	Upgrade firehouse buildings. Many of the firehouses are old buildings that need upgrades such as new roofs, apparatus, floor replacements, waterproofing, pointing, electrical upgrades as well as new kitchens and bathrooms.		Area Residents
30	FDNY		Other FDNY facilities and equipment requests	Purchase of generators.

12	FDNY	FDNY programs and staffing	Provide more firefighters or EMS workers	Request more funding for EMS & Firefighting classes and support for smoke and CO detectors and 9 volt batteries. To insure adequate levels of service, provide detectors for senior citizens and residents of Community Districts who have traditionally experienced a high rate of fire fatalities.		Area residents
20	FDNY	FDNY programs and staffing	Expand funding for fire prevention and life safety initiatives	Support mobile CPR unit. With additional funding FDNY can produce instructional DVDs in multiple languages, increase their community outreach and conduct more classes throughout all 5 boroughs especially on the weekends.		Area residents

4.4. Core Infrastructure and City Services Needs and Requests

Main Issue

Water runoff and flooding

The Community Board provided the following explanation for the above issue:

Our residents continue to report problems with catch basins. A third of our District was severely flooded during Sandy. All catch basins in the Sandy zone need to be fully inspected, repaired if necessary, and cleaned on a far more regular basis. Permanent repairs are needed at the treatment plant serving our Lindenwood area to prevent further flooding. All catch basins in CB10 require cleaning on a more regular basis. There are numerous as yet unaddressed ponding conditions throughout CB10.

Community District Needs and Requests

4.4.1. Community District Needs and Requests Related to Water, Sewers and Environmental Protection

The Community Board provided the following high level comments and background on the District's needs:

There are still areas within Community Board 10 not served by sanitary sewers as well as areas not served by storm sewers. There are numerous ponding conditions throughout the district for which solutions must be found. Our residents complain regularly of clogged and non-functioning catch basins.

The Community Board submitted the following budget requests:

Budget Requests are listed for informational purposes only. OMB maintains the definitive list that may have more updated information on request for agencies, published in its Register.

4.4. Core Infrastructure and City Services Needs and Requests

4.4.2. Community District Needs and Requests Related to Sanitation Services

The Community Board provided the following high level comments and background on the District's needs:

There are numerous dump out sites with CB10. They need to be cleaned more frequently. There is a need for mechanical broom service without requiring implementation of alternate street parking in our residential areas. Our commercial strips need additional basket services, particularly on Liberty Avenue which has a high pedestrian volume and residential uses above the stores. There is a need for the Bergen Landing DSNY facility to serve only equipment and personnel serving CB10. There is also a need for daily 4x12 pickup at every school in which there is food service.

The Community Board submitted the following budget requests:

Budget Requests are listed for informational purposes only. OMB maintains the definitive list that may have more updated information on request for agencies, published in its Register.

Expense Requests related to Sanitation Services (as provided by the Community Board)

Priority numbers apply to expense budget requests from all policy areas. A complete list of expense budget requests by this Board sorted by priority can be found in Section 5.2. of this document.

Priority	Agency	Need	Request	Request Explanation	Location	Supporters
05	DSNY	Street and lot cleaning	Increase cleaning of dump-out/drop-off locations	Additional support for bi-weekly cleaning of Dump Out Sites. Once a week cleaning is inadequate.		Area residents
06	DSNY	Garbage collection and recycling	Provide more frequent garbage or recycling pick-up	Additional basket trucks to be assigned to the commercial districts within Community Board 10 for seven days a week on a permanent basis. A basket truck is needed for daily pick-ups on commercial strips where there is a very large pedestrian population and baskets overflow daily.		Area residents; Commercial businesses
16	DSNY	Garbage collection and recycling	Other garbage collection and recycling requests	Remove two Districts (CDs 8 and 12) from the Bergen Landing facility. The overcrowded facility adversely impacts the adjacent residential community. Trucks parked/stored outside generate foul odors.	Districts 8 and 12 Bergen landing facility	Area residents
18	DSNY	Street and lot cleaning	Other cleaning requests	Request for mechanical broom for Community Board 10 for daily basis, 6 days a week, Monday through Saturday. Needed to maintain adequate levels of street cleanliness throughout Community Board 10.		Area residents

27	DSNY	Garbage collection and recycling	Provide or expand NYC organics collection program	Continued support for sustainability programs. With additional funding DSNY can increase their community outreach.		Area residents

4.5. Land Use, Housing and Economic Development Needs and Requests

Main Issue

Zoning review and enforcement, and code enforcement

The Community Board provided the following explanation for the above issue:

Most of the complaints to DOB by residents in all parts of our district relate to illegal conversions and un-permitted construction. There are numerous indications of vacant bank-owned properties in disrepair within our district due to foreclosure crisis. The number of untended, vacant homes has now increased due to the impact of Superstorm Sandy on our area. There is a continuing need for the city to develop an enforceable policy requiring owners of such properties to promptly secure them and provide for ongoing maintenance. Identifying who are the actual owners of such properties continues to be problematic and it is often difficult for our staff to do so in a timely manner. It is also difficult to contact these owners after they have been identified.

Community District Needs and Requests

4.5.1. Community District Needs and Requests Related to Land Use

The Community Board provided the following high level comments and background on the District's needs:

Issues related to increasing resiliency for homes and businesses in our Sandy zone need to be studied and programs need to be developed to offset the costs of necessary improvements for homeowners and business owners.

4.5.3. Community District Needs and Requests Related to Economic Development

The Community Board provided the following high level comments and background on the District's needs:

Economic development services are needed to assist businesses on our local commercial strips. This is especially needed on our Crossbay Blvd. retail strip in Howard Beach where virtually every business suffered economic loss due to Superstorm Sandy. Additional services are also needed on our Rockaway Blvd. and Liberty Avenue commercial strips.

4.6. Transportation Needs and Requests

Main Issue

Roadway maintenance

The Community Board provided the following explanation for the above issue:

Our residents regularly complain of needs for roadway maintenance. Increasing population overloads our roadways and increasing traffic volumes along with deteriorating infrastructure impact our residents on a daily basis.

Community District Needs and Requests

4.6.1. Community District Needs and Requests Related to Traffic and Transportation Infrastructure

The Community Board provided the following high level comments and background on the District's needs:

There is a need for expanded roadway maintenance, additional staffing at DOT to address ever-increasing deterioration of infrastructure, and reconstruction of streets and roadways in our district. There is a need to harden storm surge protection in our Sandy zone at all points where city roadways abut parkland at our shoreline and at all points where city street stub ends abut waterways. There is a need for expanded bus service without reducing roadway lanes available for other vehicles. There is a need to reconfigure 3 locations where merging traffic is problematic.

4.7. Parks, Cultural and other Community Facilities Needs and Requests

Main Issue

Park care and maintenance

The Community Board provided the following explanation for the above issue:

What parks there are in our district must be well maintained to serve our growing population. A large segment of our district has limited access to parkland which leads to our existing parkland serving large numbers of people.

Community District Needs and Requests

4.7.1. Community District Needs and Requests Related to Parks and Recreational Facilities and Programming

The Community Board provided the following high level comments and background on the District's needs:

The area north of Rockaway Blvd. within CB10 is our most densely populated area. The only parkland in that section of the district are at either end geographically which leaves a large segment of our population with limited access. Our Howard Beach area has a large older adult population but is served by only two joint operated school playgrounds which do not meet their recreational needs. A recreation center is desirable to better provide service to our residents. Superstorm Sandy damaged and destroyed much of our tree canopy. Forestry services must be expanded.

The Community Board provided the following high level comments and background on the District's needs:

Cultural programming is desirable. However, there are limited sites available other than schools. Therefore, cultural programs within our schools should be expanded.

At this time, the Community Board does not have any budget requests for this need category.

4.7. Parks, Cultural and other Community Facilities Needs and Requests

4.7.3. Community District Needs and Requests Related to Library Facilities and Programming

The Community Board provided the following high level comments and background on the District's needs:

Library services are desired. CB10 supports the QBPL requests for new and renovated facilities and expanded service hours and programming. Due to lack of public transportation to the nearest branch library there is a need to construct a small library to meet the needs of our Hamilton Beach community. Within our Howard Beach area our Hamilton Beach community has the highest percentage of youth and walking to the Howard Beach branch is difficult.

The community has approximately 320 homes with an estimated 500 to 600 school age children. The nearest branch is located at 156th Avenue and 92nd Street which is inconvenient and a hardship for those using public transportation.	Hamilton Beach	New Hamilton Beach Civic Association

4.7.4. Community District Needs and Requests Related to Community Boards

The Community Board provided the following high level comments and background on the District's needs:

There is a need to permanently base-line the budgets of CBs. In local communities the services, outreach, and opportunities for public discussion we provide are needed. Our budgets need to be excluded whenever "across the board cuts" are initiated. This exclusion from cuts should be offset by the fact that our work is carried out not only with city budget dollars but with the contribution of pro-bono service our members provide. Our Chairpersons serve as agency heads. Although unsalaried, chairpersons perform numerous functions. They must attend numerous meetings within and outside of Board boundaries. Agency parking permits are needed. The online reporting system for Local Law 47 data is not always functional. Recently, downloading 311 data from 1147 reports has not been available. It should be restored. 311 data available through the Open Data portal does not include some needed data. Open Data portal does not provide information on residential noise, the largest subset of our noise complaints, although it does provide information on other categories of noise. It is difficult for us to adequately assess community needs, identify trends, or prevent duplication of effort if complete and accurate information is not available to us. At present, 1147 information provided can only be evaluated to the zip code level in the 1147 data available. It would be helpful if that data could also be accessible down to at least the census tract level. The service request mapping system allows us to get some idea of complaint locations at the block level, but doing so requires an inordinate amount of staff time zooming maps in and out and recording the locations, complaints, and dates. More detailed information is still required as to what action was taken by agencies regarding the complaints made to 311.

At this time, the Community Board does not have any budget requests for this need category.
