INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and Community Board Budget Requests (Budget Requests) are Charter mandates that form an integral part of the City's budget process. Together, they are intended to support communities in their ongoing consultations with city agencies, elected officials and other key stakeholders and influence more informed decision making on a broad range of local planning and budget priorities. This report also provides a valuable public resource for neighborhood planning and research purposes, and may be used by a variety of audiences seeking information about New York City's diverse communities.

This report is broadly structured as follows:

a) Overarching Community District Needs

Sections 1 – 4 provide an overview of the community district and the top three pressing issues affecting this district overall as identified by the community board. Any narrative provided by the board supporting their selection of their top three pressing issues is included.

b) Policy Area- Specific District Needs

Section 5 is organized by seven distinct policy areas aligned with the service and program areas of city agencies. For each policy area, community boards selected the most important issue for their districts and could provide a supporting narrative. The policy area section also includes any agency-specific needs and a list of relevant budget requests submitted by the Community Board. If the community board submitted additional information outside of a specific policy area, it may be found in Section 6.

c) Community Board Budget Requests

The final section includes the two types of budget requests submitted to the City for the FY18 budget cycle; one list for capital and another for expense budget requests. For each budget request, community boards were able to provide a priority number, explanation, location, and supporters. OMB remains the definitive source on budget requests submitted to city agencies.

3. Overview of Community District

Community Board 2 represents the areas of Sunnyside, Woodside, Long Island City and a portion of West Maspeth. The district is bounded on the north by Queens Plaza North, the northern property line of the Sunnyside Rail Yard and Northern Boulevard; on the east by the Con Rail property; on the south by Calamus, Maurice and Maspeth Avenues and Newtown Creek; the East River to the west.

Community Board 2 is a diverse zoning district consisting of one, two family homes as well as a large number of multiple dwellings including Queens West, a very rapidly expanding residential district; commercial, manufacturing and industrial areas; mass transit systems and is accessible by a number of arterial highways, bridges, ferries and the Queens Midtown Tunnel.

The Long Island City Partnership and the Sunnyside Business Improvement District are working to improve and enhance the commercial districts in CB 2.

4. Top Three Pressing Issues Overall

Board 2 has identified a need for new schools to alleviate overcrowding and to create additional classroom space. We must continue to advocate for funding to construct new educational facilities and expand existing schools. **Affordable Housing** In keeping with the Mayor's goal to provide 200,000 of additional units of affordable housing, CB 2 is requesting additional sites for possible rezoning in our area in order to expand the availability of affordable housing.
