## INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and Community Board Budget Requests (Budget Requests) are Charter mandates that form an integral part of the City's budget process. Together, they are intended to support communities in their ongoing consultations with city agencies, elected officials and other key stakeholders and influence more informed decision making on a broad range of local planning and budget priorities. This report also provides a valuable public resource for neighborhood planning and research purposes, and may be used by a variety of audiences seeking information about New York City's diverse communities.

## HOW TO USE THIS REPORT

This report represents Brooklyn Community Board 7's *Statement of Community District Needs and Community Board Budget Requests for Fiscal Year (FY) 2018*. This report contains the formatted but otherwise unedited content provided by the Community Board, collected through an online form available to community boards from September to November 2016.

Community boards may provide substantive supplemental information together with their Statements and Budget Requests. This supporting material can be accessed by clicking on the links provided in the document or by copying and pasting them into a web browser, such as Chrome, Safari or Firefox.

This report is broadly structured as follows:

### **a) Overarching Community District Needs**

Sections 1 – 4 provide an overview of the community district and the top three pressing issues affecting this district overall as identified by the community board. Any narrative provided by the board supporting their selection of their top three pressing issues is included.

### **b) Policy Area- Specific District Needs**

Section 5 is organized by seven distinct policy areas aligned with the service and program areas of city agencies. For each policy area, community boards selected the most important issue for their districts and could provide a supporting narrative. The policy area section also includes any agency-specific needs and a list of relevant budget requests submitted by the Community Board. If the community board submitted additional information outside of a specific policy area, it may be found in Section 6.

### **c) Community Board Budget Requests**

The final section includes the two types of budget requests submitted to the City for the FY18 budget cycle; one list for capital and another for expense budget requests. For each budget request, community boards were able to provide a priority number, explanation, location, and supporters. OMB remains the definitive source on budget requests submitted to city agencies.

### 3. Overview of Community District

Community District 7 is a mixed residential, industrial and commercial community. Home to an ethnically and economically integrated population, the District is comprised of two main communities: Sunset Park and Windsor Terrace. Other community identities have gained popularity and become more established recently, including Greenwood Heights and South Park Slope.

Sunset Park consists of a strong residential community, two viable commercial strips, 5th and 8th Avenues and a large industrial area. It is bifurcated by the Gowanus Expressway and is bordered to the south by the Long Island Rail Road cut. The 23-acre facility, Sunset Park, has an Olympic-sized swimming pool, a recreation center and a large open space with spectacular views of the harbor.

Windsor Terrace and the northern part of the district consist of a smaller residential community with three commercial strips on 5th and 7th Avenues and Prospect Park West. Windsor Terrace is surrounded by the natural boundaries of Prospect Park and Green-Wood Cemetery. The Gothic Brownstone “gatehouse” at the cemetery’s entrance is a New York City landmark and the most widely known symbol of the community.

The District has been home to generations of immigrants, Irish and Italian and Scandinavian in the early 20th century and before. Mid-century saw an influx from Puerto Rico, then immigrants from the Dominican Republic and from central and South America. The 1980s saw a large increase in residents from China and the 90s began an influx from Mexico and, to a lesser extent, the Middle East. Our community is extremely diverse (thirteenth of the fifty-nine Community Districts, according to the New York University Wagner School) and yet our populations live mostly in peace, making for a family-friendly neighborhood.

The residents have learned to organize to fight for resources and demand change and our collective action have produced positive results. We defeated a floating power plant in 2004 that would have been taller than any building in the area and longer than the Titanic. We rezoned most of our residential community in 2005 and 2009. After a 40-year effort, we finally built a local high school in 2009 and followed that up the next year with a new elementary school. Our waterfront park should be open within weeks. We finished our 197-a Plan, which calls for the enhancement of our industrial waterfront, improved environmental performance and additional recreation opportunities on our waterfront and it was passed by the City. New businesses are bringing investment and jobs to our waterfront. The Community Board, along with six community organizations, negotiated a reduction in emissions from two of our local power plants. We are home to a bio-technology center, enormous economic development investments at Industry City, Liberty View Plaza, the Brooklyn Army Terminal, Bush Terminal and the South Brooklyn Marine Terminal and we have the capacity to continue to grow our industrial sector with good-paying jobs for local residents. We have led the local effort to improve pedestrian safety and redesign our streets for safety and mobility improvements. Clearly, positive changes and investments are being made in our community, but more needs to be done for a community that had been left behind in the past. Our Board has been forward-looking and aggressive in our pursuit of investments and infrastructure improvements that will enhance the lives and livelihoods of our residents, workers and business owners.

However, there continue to be sections of our community that have not received sufficient investments and improvements and this continues to leave some of our residents behind. Our community has overcrowded schools, an insufficient amount of parkland, second oldest housing stock in NYC according to NYU, and not nearly enough affordable and senior housing units. Our waterfront access is extremely limited. Many of our streets remain dangerous to cross and have crumbling infrastructure. Public transportation does not extend far enough and is in need of upgrades. We do not have fiber-optic cable and more than 20% of households in Sunset Park do not have internet service, according to a recent survey. The Gowanus Expressway is under constant construction and continues to bring 50 million emission-spewing vehicles through our community every year.

#### 4. Top Three Pressing Issues Overall

The three most pressing issues facing Brooklyn Community Board 7 are:

- *Schools*
- *Traffic*
- *Other/Connecting local residents to the jobs that are being created along the waterfront, including training for specific skills.*

Schools – Despite the construction of four new schools since 2009, CB 7 still lacks an adequate number of seats and facilities, particularly for pre-k students. The district lacks space of appropriate size for additional school development and we must think creatively to find new spaces. Traffic – Pedestrian safety must be paramount, especially with schools, senior housing and other sensitive sites located on or near major roadways and truck routes. CB 7 is pleased with the changes made to 4th Avenue and eagerly awaits changes to Caton Avenue. We would like to see similar safety enhancements made to 3rd, 5th and 8th Avenues in Sunset Park, as well as Prospect Park Southwest and McDonald Avenue. Other – Billions of dollars in public and private development is being invested in the Sunset Park waterfront, potential creating thousands of new jobs with good wages. CB 7 has long sought to protect its industrial community because of the economic benefits that can come. However, there are negatives associated with proximity to industry, including heavy truck traffic and emissions. We believe the residents who must endure these hardships should be prioritized when it comes to reaping the benefits of these investments.

#### Main Issue Related to Health Care and Human Services

*Other/DHS's use of hotels in the local community to house homeless families without community notification, allowing rumors and distrust to spread, and stigmatizing their own clients because of the agency's lack of forthrightness.*

DHS's failure to communicate with the local residents or even elected officials and government agencies makes the local community believe the City is hiding something, such as placing pedophiles in the community. This lack of trust is a terrible disservice to the client the agency serves. Ours is a welcoming community and embraces people of all backgrounds and economic status, but the City's failure to disclose builds distrust for the City and the vulnerable population they are trying to serve.

#### Community District Needs Related to Facilities and Programming for Older New Yorkers

Under the FY17 Capital Priorities for the Board, our members call for an increase in programmatic funding for existing senior centers in the district. Our members are concerned about the proliferation of for-profit adult day services around the city and believe the city's senior centers provide a much higher level of service and more opportunities for seniors. Unfortunately, the city centers are not eligible for the Medicaid funding and therefore are not playing on an even field. CB 7 believes the city should provide additional funds to allow for the centers to increase the number of seniors they serve.

#### Community District Needs Related to Services and Programming for Low-Income and Vulnerable New Yorkers

CD 7 has a high rate of poverty (28.7% according to NYU) and a very large foreign-born population (47.2% - NYU) so it could be argued that all services provided are for low-income and vulnerable New Yorkers.

#### Main Issue Related to Youth, Education and Child Welfare

##### *School and educational facilities (Capacity)*

This year will mark the fourth new school opening in our community since 2009 and still our schools are extremely overcrowded. The lack of space is exacerbated by few development parcels of appropriate size in the community and an influx of additional students through universal Pre-K. CB 7 approved a site for a new school this year at an acknowledged dangerous intersection, but we have few choices for new sites, even when we have a budget for a new school.

#### Community District Needs Related to Educational Facilities and Programs

CB 7 has worked recently collecting sites for future school construction. Recent school construction belies the fact that our schools are overcrowded for lack of appropriate planning in the past as our community's population has grown 50% in 20 years. Our lack of seats in public schools and the closure over the past decade of private schools at OLPH, St. Michael's and Bishop Ford, put additional pressures on our existing facilities but also creates opportunities for our not-for-profits. The overcrowding makes the search for additional school sites even more urgent and we believe some of the smaller sites we have identified may be appropriate for Pre-K programs and perhaps even charter schools, which can alleviate the overburden on existing facilities. We recognize the importance of early childhood education and this deficit of seats leaves our children, who are mostly poor and/or from immigrant families, at a terrible disadvantage. New seats also sometimes have negative consequences, as well. The new PS 516 opened in the building that previously held the Sunset Park Head Start program, which had to move and whose 400 student population was cut in half. With the ever-growing and diverse immigrant populations within our community, there is an immediate need for augmented bilingual/ESL education for our Latino, Asian, Middles Eastern and Eastern European populations. Additionally, English proficiency programs, perhaps through our schools using the very students who are mastering language skills, for older residents would serve a great need for our community. Work skills and experience programs, such as SYEP and internships, must be expanded to prepare our students for the job market. We are very pleased that our high school's curriculum embraces such learning outside the classroom and that two AmeriCorps programs serve our community through the Red Hook Community Justice Center and Lutheran Family Health Care.

#### Community District Needs Related to Services for Children and Child Welfare

The population of the District has a large percentage of young people (30% under age 19) and programs for youth are greatly needed. Since our District has a minimum of public recreation space our children must rely on afterschool and other community-based programs for arts, entertainment, sports and academic help. Many of our residents fall beneath the poverty line and parents often have to work more than one job to support their families. These programs are vitally important to the life, learning and social skills of our youngest residents. The City must do more to support our children and our community-based organizations by providing additional funds. We must consider the need for afterschool and vacation care for children whose parents work. Additional funds must be available to support organizations that provide these services to create more day care slots for the local community and facilities. This could have an added benefit of creating jobs. Our local SYEP program is run through a program located at our high school and the school has an aggressive internship program for upperclassmen, but these options are not enough for a community with such a large youth population. The approximately 1600 SYEP slots are the same amount we had a decade ago, when our population was smaller. When the economy turned bad, there was increased competition from older workers for precious few jobs, increasing youth unemployment. These programs provide some of the few opportunities our young people have to gain work experience. CB7 held two gang awareness forums for youth and parents to make people aware of the local gangs in the community and alternatives. NYPD and former gang members provided dozens of people with stark information. Awareness, avoidance and alternatives are keys to combating this problem in our community.

## Public Safety and Emergency Services

Main Issue Related to Public Safety and Emergency Services*Police-community relations*

CB 7 is a relatively low crime community, with (9.4/1000 residents for serious crimes), ranking in the top third. However, recent high profile events over the past three years have reopened a rift between some parts of the community and the 72nd Precinct. We acknowledge that the precinct and Brooklyn South have been working diligently to overcome this divergence. We believe improved community relations will enhance the effectiveness of our local force.

Community District Needs Related to Policing and Crime

Of course, police-community relations are the top concern moving forward as high-profile incidents over the past two years have threatened the relationship between parts of the community and its police force. CB 7 is pleased that the NYPD recognizes this problem and is working to address it, but positive relations and interactions must be an ongoing priority, not just something to be addressed when there are negative incidents. However quality-of-life concerns are the most frequent constituent complaints addressed through the Community Board. The top QOL complaints we recent include:

- Double-parking. Changes to 4th Avenue have highlighted the need for vigorous double-parking enforcement, which will only be exacerbated when the median is fully built-out;
- Noise. Noise complaints, which are most prevalent in the summer, include residential, but usual concern noise and illegal behavior at businesses (particularly one's with liquor licenses);
- Prostitution. We have seen recent spike in our prostitution complaints, particularly on 39th Street, at or near newly built hotels in the manufacturing district;
- Vagrancy/public drunkenness: We have also seen an uptick in complaints about vagrancy/public drunkenness, particularly in or near parks. The recent introduction of a homeless population to the district through hotels in the manufacturing zones may have led to this increase. Pedestrian safety is also a top concern and we are trying to address this issue through DOT, however, it is vital that appropriate NYPD resources be made available, including an increase in the number of school crossing guards allocated to our community. We have new schools, annexes, pre-K facilities and charters in the past 20 years, as well as a burgeoning population but have not seen an increase to crossing guards in decades. Several children have been injured or even killed in our district in the past years making this an essential need.

**Capital Requests Related to Public Safety and Emergency Services**

Priority	Agency	Need	Request	Location
15/46	NYPD	NYPD facilities and equipment	Provide surveillance cameras	
40/46	NYPD	NYPD facilities and equipment	Provide surveillance cameras	
46/46	NYPD	NYPD facilities and equipment	Renovate or upgrade existing precinct houses	NYPD Applications Division

**Expense Requests Related to Public Safety and Emergency Services**

Priority	Agency	Need	Request	Location
1/30	NYPD	NYPD staff and training resources	Assign additional crossing guards	
7/30	NYPD	NYPD programs	Other NYPD programs requests	
26/30	NYPD	NYPD staff and training resources	Assign additional uniformed officers	

#### Main Issue Related to Core Infrastructure, City Services and Resiliency

##### *Cleanliness/trash collection*

All of the above choices are of great concern, however street cleanliness ratings in the Sunset Park portions of our community have dropped severely in the past three years after street sweeping was reduced to two days a week. DSNY has suggested increasing sweeping in the community, but that would be unacceptable to the residents and would lead to additional problems, such as increase emissions as vehicles have to be moved more often. Alternatives must be found to increased street sweeping.

#### Community District Needs Related to Water, Sewers and Environmental Protection

The sewers, watermains and catch basins in this community are among the oldest in Brooklyn. There are a number of sewer collapses and undermined roadways reported to the Board each year. Several street reconstruction projects have been on our roster of Capital Budget requests for more than twenty years. The heavy volume of traffic, particularly on 3rd, 4th, 5th, 8th and Caton Avenues, major thoroughfares and truck routes, causes severe wear and erosion on these streets and off-route trucks put an additional heavy burden on our side streets, which were not meant to accommodate such heavy vehicles. Our old streets and infrastructure are crumbling and additional contracts and resources must be made available for trenching activities. While the City occasionally paves streets, we are fearful that the underlying causes of the street degradation are not being addressed and repaving merely covers over the problems. We believe that DOT and DEP must address these concerns much sooner and more comprehensively, otherwise it may simply be a waste of funds as streets keep sinking despite new asphalt. Two years ago, a pipe thirty feet below 43rd Street broke leaving residents and businesses on the block without water, sewer and other city services, months of construction and a lack of access, as well as other hardships, on the block. Last year, a street collapse on 64th Street prevented travel on the heavily-used Fifth Avenue, including the rerouting of the bus for several days, causing hardships and loss of revenue for residents and businesses, alike. We just passed the one-year anniversary and the sinkhole is still open. We believe that if the sewer and water pipes were replaced in 1988, as they were scheduled to be, this expensive, year-long plus infrastructure problem would not have occurred. We still are waiting on this work, nearly thirty years later.

#### Community District Needs Related to Sanitation Services

Community District 7 continues to host more than its fair share of sanitation facilities. In addition to numerous private carters and recyclers, we are also home to the SIMS Municipal Recycling Facility, which will take most of NYC's metal and plastic recyclables; the garage for BK-7 and BK-10 (which serves CB10); the Hamilton Avenue Marine Transfer Station, which is expected to reopen in 2015; IESI, a private company that takes 1000 tons of city residential trash. We will soon be home to an industrial grease recycling facility, as well. All these facilities require additional trucks in our community and, unfortunately, sometimes we are taken advantage of. Many of the private municipal waste truck drivers take liberties by parking beneath the Gowanus Expressway, along 3rd Avenue or next to Green-Wood Cemetery. This illegal, and potentially health-hazardous behavior, must be curtailed by vigorous and sustained enforcement. We also acknowledge that a change in City leadership and policy could result in DSNY not fulfilling its promises to our community. Just four years ago, DSNY threatened a change in the City's Solid Waste Management Plan during budget negotiations which would have meant delaying some new sanitation facilities in other parts of the City while moving full steam ahead on the Hamilton Avenue MTS in our district. This would have meant even more garbage for our community as the City would have been forced to continue to send residential garbage to private facilities, such as IESI, while bringing the MTS back online. While this did not come to be, we do not appreciate being used as a pawn by DSNY during negotiations. Our community deserves better from DSNY. We endure enough from this agency.

## 5. Summary of Community District Needs and Budget Requests

### Land Use, Housing and Economic Development

#### Main Issue Related to Land Use, Housing and Economic Development

##### *Real estate development (development trends)*

There is a rising concern that new housing development is not affordable for local residents, those specifically designated affordable, as the median income in CB 7 is approximately \$43,000/year, while the standard for affordability includes the median income from more affluent communities. Additionally, affordable units that are mandatory within a project that includes developer incentives need to include family-sized units and not just studio and one-bedroom units. Finally, unlike DCP's recent characterization at a presentation on the Mayor's affordability plan, our experience is poor people do own cars and the plan should reflect that reality.

#### Community District Needs Related to Land Use

CB7 is greatly concerned that hotels are allowed as-of-right in manufacturing districts, as we believe this is a back door way to promote housing expansion. We have spent almost two decades promoting and trying to safeguard our industrial waterfront, through our 197-a study and plan, and wish DCP would close this loophole, which could have devastating consequences for businesses and local employment if additional hotels are allowed to open in our manufacturing area. The most recent hotels built in our community are either being used for homeless shelters (49th Street in the manufacturing district) or prostitution (39th Street, also in the manufacturing zone). We are concerned these uses may one day make our manufacturing zones unaffordable, opening the door for housing, and throwing thousands of local residents out of their jobs. This as-of-right loophole for hotels in manufacturing zones must be closed. When he was Councilman for this community, Mr. deBlasio promised legislation to close the loophole to allow hotels in manufacturing zones as of right. A decade later we are still waiting for that legislation. In the meantime, those hotels have now become the City's homeless plan.

#### Community District Needs Related to Economic Development

Our Board welcomes economic development along our waterfront, but insists that any development immediately adjacent to the water be limited to water-dependant and community uses. Our waterfront is our greatest physical asset with spectacular views and large areas ripe for development. We strongly believe that any development in our community must be sensitive to our current residents and businesses. Should businesses be required to move as part of a major development, priority should be given to relocating the businesses within the community. Our priority is to bring additional jobs to the community, not to force some businesses to leave. Our community has seen much of its potential wasted in the past from the placement of negative-impact facilities, such as the Metropolitan Detention Center, power plants and waste transfer stations. The community has received a disproportionate number of these facilities while many of the other neighborhoods in the City receive money to lessen the impact of such facilities or relocated them altogether. In the interest of equity of City services, we must insist that a moratorium on such negative-impact facilities be placed in the community so that we have the opportunity to determine how we may best develop some of our assets in the interest of the community and City. We must insist that fair-share principles are respected and that a local public hearing must take place and community benefits agreements are negotiated for each proposed facility before any new facilities are allowed.

Priority	Agency	Need	Request	Location
22/30	EDC	<i>Economic development investments</i>	<i>Expand public programming and activation of public spaces on City-owned sites</i>	<i>Brooklyn Army Terminal Pier 4</i>

### Transportation

#### Main Issue Related to Transportation

*Other/Pedestrian safety. DOT has done an excellent job of improving the pedestrian experience on 4th Avenue, widening the medians and reducing through lanes, but with minimal impact on travel time. Many more streets in the community need similar treatment as they are home to sensitive facilities such as schools, senior centers and housing, libraries, parks and transportation hubs. These streets include 3rd, 5th and 8th Avenues in Sunset Park and Caton Avenue (underway), McDonald Avenue and Prospect Park Southwest in Windsor Terrace. We note that the most dangerous intersection in the community, 3rd Avenue and 60th Street, is slated for another school and desperately needs safety enhancements.*

This issue includes many of the other issues listed, including the bicycle network, pedestrian ramps, truck routes, enforcement, access, traffic, street lighting and public transportation. Pedestrian safety is multifaceted and not just physical changes and capital outlays. It also includes NYSDOT (and other agencies) as the Gowanus and Prospect Expressways have a significant impact on safety issues.

#### Community District Needs Related to Traffic and Transportation Infrastructure

Transportation issues are amongst our most pressing. This is because we are home to two major highways, a large industrial area that requires trucks and because transportation issues have a strong impact on public safety and the quality-of-life in our community. State DOT also plays a crucial role in how trucks access our community as most come via the Gowanus and Prospect Expressways. Unfortunately, constant repair of the Gowanus and terrible traffic on both highways encourages drivers to get off the highways and travel local streets. In addition, a lack of appropriate highway entrances and exits, coupled with our large industrial area, mean that we constantly have problems with off-route trucks looking for ways to get around traffic. These additional trucks on our streets, with more coming due to welcomed economic development along our waterfront, mean additional conflicts with and dangers for pedestrians. City DOT, however, has recognized these conflicts and has worked with the Community Board and others to develop a traffic and pedestrian safety plan for 4th Avenue that has reduced the number of traffic lanes from three to two (north and south), widened the pedestrian medians and vehicle turning lanes, added high visibility paint and plastic bollards and promises aesthetic enhancements in the near future. We have been pleased with the rapidity in which changes were implemented, after a year of community workshops and study and ultimate approval by our Board. Now more than a year after these changes to 4th Avenue, we were pleased to learn that these infrastructure improvements have reduced speeding by 38%, pedestrian injuries by 29%, total crashes by 13% and crashes with injuries by 8%. This has been accomplished with minimal increases in travel time. Although we believe additional improvements can be made for safety and mobility, these statistics are encouraging.

## Parks, Cultural and other Community Facilities

### Main Issue Related to Parks, Cultural and other Community Facilities

#### *Quality of parks and park facilities*

While some of our parks have undergone rehabilitation recently, many remain in need of upgrades, including: • Rainbow playground • Martin Luther Playground • John Allen Payne Park (half funded) • D'Emic Park • Pena-Herrera Park • Sunset Park Recreation Center Bush Terminal Park opened last year, but we still only have the park the community was promised. In a community that has less than half of the city's standard for parkland per capita and where nearly 25% of our population is more than ¼ mile from a park, it should stand to reason that the few facilities we have should be kept in top condition.

### Community District Needs Related to Parks and Recreational Facilities and Programming

Our parks are oases within the concrete City where people of all generations, socio-economic statuses and ethnic and national backgrounds can gather, relax, play or simply enjoy a more pastoral setting within the City. They are for mental rejuvenation, physical fitness and stress relief. However, during difficult economic times our parks see an increase in use because of limited personal recreation funds, but often experience a decrease in programming and upkeep. Together these facts spell trouble for our parks as overused equipment falls into disrepair or natural settings are overtaxed. Unfortunately for local parks, the City's main parks seem to get all the attention while our facilities become eyesores. Facility upgrades are left to our Councilmembers' discretion and ability to negotiate and while our elected officials have done a great job bring these funds to the community, we believe it is unfair to them to have to concentrate funds in parks that should be funded directly by the agency. As such, we call upon the City to establish a capital program for local parks that does not rely on limited discretionary funds from elected officials.

34/46	DOT	Repair or construct new sidewalks, curbs or pedestrian ramps	Replace sidewalks and curbs on East 4th Street between Ft. Hamilton Parkway and Caton Avenue at the community garden	East 4th Street Ft. Hamilton Parkway Caton Avenue	
35/46	DSNY	Provide new or upgrade existing sanitation garages or other sanitation infrastructure	Acquire site to relocate and construct a new BK-7 garage. CB 7 strongly believes the sanitation garage should not be located on a waterfront property. Additionally, BK-10's garage, currently housed in the same building as BK - 7, should be located in its home district.		
36/46	NYCTA	Improve accessibility of transit infrastructure, by providing elevators, escalators, etc.	Add 3 elevators and make 15th Street/Prospect Park station on the F line handicap accessible	15th Street station	
37/46	DOE	Provide a new or expand an existing high school	Allocate funds for site acquisition, design and construction of a new high school in CD 7. Sunset Park High School opened in 2009, the only HS in the district, and is beyond capacity, as are the school in neighboring communities. It took 40 years of effort to get Sunset Park HS. The CB feels it is necessary to start the process again, given the time scale.

## 6. Summary of Prioritized Budget Requests

### Brooklyn Community Board 7 Expense Requests

Brooklyn Community Board 7 submitted 30 expense budget requests, organized by priority.

Priority	Agency	Request	Explanation	Location	Supporters
1/30	NYPD	Assign additional crossing guards	Increase school crossing guard personnel in CD 7. Our population has grown by 50% in two decades and we have many more schools, charters and pre-K programs, but our crossing guard personnel has remained at 40 throughout. Several children have been hit at unguarded crossing in the past few years in this community, with at least four deaths. The allocation formula has never been explained.		Councilman Brad Lander
2/30	ACS	Provide, expand, or enhance funding for Day Care Slots and Head Start Programs	Increase ACS funded day care slots in CD 7. The community's need has increase significantly, but we have lost seats to do competition for space. Sunset Park Head Start had to move for the new PS 516, but lost half of its slots in the process. The popular BAT Kids contract was not renewed and the space was reused for Pre-K seats.		
3/30	ACS	Other child care requests	Initiate an RFP to provide additional day care services in CD 7.		
4/30	ACS	Ensure adequate funding for preventative and child protection services	Increase funding for preventive protective services for children.		
5/30	DOE	Improve school safety	Allocate funds for additional training for school safety officers specifically serving District 75 students. A few high profile incidents in the past two years of special needs students leaving their schools unnoticed, including one incident in our community, makes our board members question whether standard training is appropriate when dealing with special needs populations.		
6/30	DPR	Other park programming requests	Allocate resources to bring "Playground in a Box" to Sunset Park during the entire period when the playground is under construction. The community has precious few playgrounds and the loss of the major playground at Sunset Park during construction would be intolerable.	Sunset Park	
7/30	NYPD	Other NYPD programs requests	Increase and sustained truck enforcement. CD 7 has an inordinate number of trucks due to a large industrial area and poor highway access. Truck traveling off-route in a dangerous manner (such as speeding) have been an increasing concern for residents.		
8/30	NYCTA	Expand bus service frequency or hours of operation	Restore full funding for the B-37 bus to 3rd Avenue in CD 7, with 24 hour service		
9/30	HRA	Provide, expand, or enhance educational programs for adults	Given the Board's large foreign-born population and low rate of high school graduation, board members feel it is essential to increase programmatic funding for adult ESOL, literacy and education programs in the local community.		Opportunities for a Better Tomorrow

## 6. Summary of Prioritized Budget Requests

### Brooklyn Community Board 7 Expense Requests

Brooklyn Community Board 7 submitted 30 expense budget requests, organized by priority.

Priority	Agency	Request	Explanation	Location	Supporters
10/30	ACS	Provide, expand, or enhance preventive services	Increase programmatic funding for youth-oriented diversion programs concerning drugs, crime, alcohol and gangs in CD 7.		
11/30	DEP	Clean catch basins	Increase funding for sewer and catch basin maintenance in CD 7.		
12/30	DEP	Other sewer maintenance requests	Study water and sewer problems in area bounded by Kermit Place, East 7th Street, East 17th Street and Caton Avenue	Kermit Place East 7th Street	
13/30	BPL	Extend library hours or expand and enhance library programs	Maximize library hours in CD 7		
14/30	DYCD	Provide, expand, or enhance after school programs for middle school students (grades 6-8)	Allocate and ensure funding for afterschool music and arts programs city-wide.		
15/30	HRA	Provide, expand, or enhance job training	CB 7 believes community-based employment training programs for special needs populations should be restored.		
16/30	DSNY	Provide more frequent garbage or recycling pick-up for schools and institutions	Restore 5 day-a-week pick up at all schools district-wide. Most schools do not have appropriate facilities to store garbage for several days and often end up storing curbside 7 days a week.		
17/30	DSNY	Provide more frequent litter basket collection	Increase funding for corner basket pick up. Corner baskets in CD 7 are overflowing and BK - 7 has responded, in part, by reducing the number of baskets. CB 7 believe more frequent pick ups can alleviate the problem.		
18/30	DPR	Forestry services, including street tree maintenance	Increase funding for tree planting and pruning district-wide in order to expedite schedule		
19/30	DSNY	Other cleaning requests	Allocate additional personnel for manual street sweeping in CD 7 on commercial streets.		
20/30	DFTA	Enhance educational and recreational programs	CB 7 believes city senior centers are now in competition with for-profit facilities that have access to federal reimbursement. Programs at city facilities should be enhanced in order to compete.		
21/30	DPR	Other park maintenance and safety requests	Increase Parks Department budget by 5% for maintenance personnel in CD 7		
22/30	EDC	Expand public programming and activation of public spaces on City-owned sites	Allocate funds for security in off-peak hours in order to maintain public access at BAT Pier 4	Brooklyn Army Terminal Pier 4	
23/30	DOT	Improve parking operations	Allocate funds to study the lack of parking throughout CD 7 and examine options for increasing parking availability district-wide

24/30	DOT	<i>Repair potholes (resurface roads)</i>	<i>Increase funds for pothole repair in CD 7</i>		
25/30	DYCD	<i>Provide, expand, or enhance the Summer Youth Employment Program</i>	<i>Additional SYEP slots are needed in our community because of our very large youth population and many of the slots are used by students who live outside of CD7.</i>		
26/30	NYPD	<i>Assign additional uniformed officers</i>	<i>Increase patrolman service at 72nd Precinct. We commonly hear from constituents that there are only two or three cars patrolling, particularly on weekends. A smaller police force, special assignments and borough-wide agencies have contributed to a steep decline of local officers in the past decade.</i>
